## SHERIFF'S SALE OF BEACH LOTS SOUGHT

Through a suit on file here against W. S. Harris and his wife, Sadie Harris, Caroline Lemon will seek to have the sheriff sell two Huntington Beach lots, mortgaged to secure a promissory note for \$1500, signed on April 25, 1916, in favor of Mrs. Emily Lemon. The suit was filed by Attorney A. C. Coones of Compton. It was recited in the complaint that Mrs. Lemon died subsequent to the signing of the note and that the note and mortgage were distributed to the estate of Frank Lemon, deceased, and finally, on December 12, 1917, distributed to the plaintiff. Only \$180 in interest has been paid on the note, it was alleged.

## LARGE CROWDS AT CARNIVAL LAST NIGHT

Heigh-o! Heigh-o! The carnival's come to town; The wheel, the whip, the frolic, and Bluey the clown.

The stay of the big Wortham Carnival in Santa Ana this week is going to be profitable for the carnival company, worth while for the exchequer of the local American Legion Post, and of decided interest and amusement for the public of Orange county. This was indicated on the opening night last night when large crowds visited the carnival grounds on Second street between Main and French and freely patronized the various shows and concessions.

The visitors were good natured and jolly, the lights were alluring, the spotters were clever and nearly every show and concession had its crowd. The Panama Canal model, the Submarine and "Mamie" were not ready for opening last night, but they were to be completed this morning and all the shows were to be open tonight. Each show has a Legion boy for doorkeeper and the soldier boys have charge of the country stores and the selling of tickets for a spiffy new Ford which will be given away Saturday evening.

The carnival is—well, it's a carnival. It claims to be the world's best, and to a casual observer last night the claim appeared well founded, as the shows are of a high order. Bluey-Bluey, in the sideshow tent on Spurgeon street, is a show all to himself, with his fire-eating stunts, rope tricks and electrical display. Texas Joe walks up a ladder of upturned butcher knives (sharp ones, too) in his bare feet and then jumps into a box of broken glass. The glass-blowing show is also a good one.

A young circus also attracted a full attendance, with its trained ponies, dogs and monkeys, un-ridable donkey and a thrilling lion stunt with four jungle denizens in the big cage. In another show tent is the skinny lady, seven feet high, and weighing around 85 pounds, a bald-headed man who handles bees quite lovingly, a lady trick artist, and Amaza, a spiritualist, phrenologist, palmist, mind-reader and general all-around fortune teller and occult adviser.

An "Over the Falls," a "Barl of Phun," and a water circus with fancy diving exhibition and trained seals are among the other attractions. The usual riding devices, and then some, are present for the enjoyment of young and old. The ferris wheel and merry-go-round attracted the usual patronage, while for the more adventurous the 'whip' and 'frolie' furnished amusement and thrills.

The big carnival is here and its a humdinger, so that undoubtedly many thousands will be entertained there every afternoon and evening this week, winding up on Saturday night. There is no admission fee to the carnival grounds.

## PETERSON WILL FILED

Through a petition on file today, Roy and Verna Peterson will seek to have probated the will of C. O. Peterson, prominent retired shoe merchant of this city, who died on January 27, last. The will, which was filed through Attorney J. C. Burke, directs that all of the real estate of the deceased be converted into money as soon as can profitably be done.

## DISTRICT IS TO VOTE ON ISSUE OF \$20,000

GARDEN GROVE, Feb. 11.—Alamitos school district, located northwest of Garden Grove, is to vote on Feb. 14, upon a proposal for \$20,000 bonds. The district is to build a new school house, if the bonds carry.

Polls will be open at the schoolhouse from 8 a. m. to 6 p. m. The old registration books will be used, excepting that anyone registered in 1920 thirty days before election may

also vote even though his name is not on the old great register. Los Alamitos, which has a school district name of Laurel and which includes the sugar factory town, is to vote on Mar. 13 on \$40,000 bonds. The old great register with new registration up to thirty days before election will be used in that election. The old great register will be used in no elections after April 1.

## SOUTH IS BEST FOR AVIATION CAPITOL

LOS ANGELES, Feb. 11.—Plans to make Los Angeles "the Detroit of aviation," and for an air exhibit that will surpass anything in this country's history, were discussed last evening at the organization meeting of the Aero Club of Southern California at the Alexandria.

President M. M. Turner of the temporary organization, in opening the meeting, declared that it is con-

ceded by aeronautical authorities that Southern California is the ideal place for the aircraft industry and that in a few years the business here will mean an annual turnover of \$50,000,000.

He then announced that that \$25,000 has been raised and \$100,000 is assured for an air exhibit in this city and Pasadena in May that will set new aviation standards, especially in the demonstration of commercial touring and other practical aircraft.

At the close of the meeting the following were appointed to act as temporary directors pending the election of the regular officers: Dr. Ford Carpenter, L. C. Brand, G. B. Harrison, J. L. Hisey, David R. Faries and K. M. Turner. They will perfect the plans of the club and will make nominations.

Reflection increased the vigor of the mind, as exercise does the strength of the body.—Lewis.

## LOOK AT ASPIRIN

If the name "Bayer" is on tablets, you can get relief without fear.

When the Bayer Company introduced Aspirin over eighteen years ago, physicians soon proved it a marvelous help in relieving Rheumatism, Colds, Headache, Neuralgia, Earache, Toothache, Lumbago, Neuritis, Aching Joints, and Pain in general.

To get this same genuine, world-famous Aspirin, you must ask for "Bayer Tablets of Aspirin" marked with the "Bayer Cross." You will find safe and proper directions in every unbroken package.

Handy tin boxes of 12 tablets cost only a few cents. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacture of Monacetcacidester of Salicylicacid.—Adv.

**DEFENSIVE CLUB ORGANIZED AT FULLERTON**

(Continued from page one)

is doing a good work. I don't think that we should attempt at all to usurp the functions of the county chambers.

"My idea of the organization under discussion here tonight is that it has an entirely different flavor."

"The movement to organize in this end of the county started as a result of the attempt of the supervisors of the south half of the county to gerrymander the lines of this supervisory district so as to take a portion of this district and add it to another, thereby increasing the assessed valuation of that district."

"The supervisors look upon this territory as a well of money. The proposed line takes off Placentia and that rich section and adds it to Supervisory District No. 2. Anaheim is left out because of the large vote there, and because of the fear that we might take away a supervisor from the south half of the county. If they will take in Anaheim, we would be willing to grant the change, for in that event we might have two supervisors here instead of one."

"The time is coming when the Third district must be redivided. We have no grudge whatever against the south half of the county, but when they can make a change, as was proposed and nearly accomplished, with the people directly affected having no voice in the matter, we thought the time had come when we should have a definite organization—one that would make itself felt and have weight and one which would make it possible to combat any unfair rearrangement of the boundary lines that might be attempted. Let the Board of Supervisors know that we have such an organization, and they will not again try to pull off the stunt over night."

"The oil well sections of this district pay a large amount of taxes. They are large users of the roads, perhaps more than the proportion of taxes they pay. We are willing to let the southern part of the county have part of the money derived from this source, but we are not willing to submit to the gerrymandering of the lines without having something to say about them ourselves."

**Pay 48 Per Cent Taxes**  
"We pay forty-eight per cent of the taxes and we feel that something like that amount should be expended in this district. We feel that we are entitled to that consideration."

"A booster organization? What for—to boost out officers who are not doing the fair thing by us? We will consent to a fair redistricting of this section, but not to the one proposed."

E. K. Benchley, Fullerton banker—"I feel that there is a call for self-protection for the north end of the county. The first meeting of the

people of this section was called at the instance of the supervisor of this district. There is but one purpose—self-protection."

W. L. York, La Habra—"I believed there is but one purpose, and that is for protection."

F. C. Krause, Fullerton banker—"We would feel sorry if anything should be done that in any way should bring up a feeling between the sections of the county. We have a good boost organization in the Associated Chambers of Commerce. It is composed of a bunch of good fellows. We should organize to protect ourselves against things that might come up and encroach upon our rights. This should be without malice toward the beach communities or any other section of the county. We will pay 50 per cent of the cost of Newport harbor under the county bond issue, and we are very willing to do it. It is a good enterprise for the county. As a good district becomes more densely populated we are entitled to more roads. I hope we will form an organization with teeth in it so that it can bite if necessary, and I hope that it will result in avoiding a jar between the north and south end of the counties."

Rev. F. M. Dowling, Placentia—"We want to see every section of our loved county continue in their present harmonious relations. We want justice, and that is all."

**Doesn't Want Split**  
W. H. Swope, Brea—"We of Brea recognize the need of an organization of this kind, and not one that will detract from the Associated Chambers of Commerce. Our county is small enough, and we don't want it split into factions."

Horace Benjamin, Anaheim banker—"We should organize to protect ourselves."

Mrs. Elmer Ford, Fullerton—"We all wish to protect our end of the county. We hope necessity never will arise for calling the organization into action to fight for our rights. We hope an adjustment of the lines will be made that will be just."

L. E. Twombly, Placentia—"The south end of the county is unanimous for the good roads bonds because the north end is going to pay the bill. I favor organization of Northern Orange county for offensive and defensive operation."

W. H. Seamans, Yorba Linda—"We have no grudge against the south part of the county. We have had experience in Yorba Linda. Formerly we were in the fourth district and one of the inconveniences was that the line was located so that in our city one resident could vote in Yorba Linda, while his neighbor on the opposite side of the street had to go to Yorba to vote. The little money we paid in the till we never saw again. Our roads were in a frightful condition. We were transferred to the Third supervisory district. Schumacher has made it safe to walk on the roads, even in the day time."

W. C. Adkins, editor of the Brea Progress—"I believe we need a boost organization—an organization that will boost this end of the county and at the same time one that will protect us—a defensive organization, as well as a live boosting organization."

Rev. Spicer of Brea wanted to know how the organization was going to be defensive, how it would be effective.

McFadden answered the question by stating the defensive feature feature comes in being prepared in

advance, when the offensive is less apt to be attempted.

"If they know you have an organization they will not attempt to slip something over on you," said he. "The reason they laid down on their first attempt to gerrymander the lines was because of a probable \$600,000 bond issue for bridges on the coast highway. They want our support. I want them to build good roads, and I favor the harbor. We should be treated fairly, that is all we are asking."

Mrs. Meyers, Buena Park—"We came here to stand for the third district and the supervisor. Why not let them know that we have organized, what we have organized for, and that we mean business."

**Grand Opportunity**  
Major E. J. Marks—"There never was a time when we had the opportunity for advancing this section as at this time, and we should organize and have regular meeting dates."

McFadden had suggested that it probably would be a year before the Board of Supervisors would again attempt to change the boundaries, and suggested possibly that there never would be occasion for action by the organization, with probability of there being no occasion for another meeting soon.

It was declared that if regular meetings were not held that the organization would soon simmer to nothing and lose its potency as a factor should occasion arise for a concerted fight against what might be thought to be an unjust redistricting of the territory.

Supervisor Wm. Schumacher—"Major Marks has hit the keynote. We should have definite and stated meetings. In my opinion, we will need this organization. If there are no stated meetings, interest and attendance will simmer to nothing."

W. T. Brown voiced his sentiment as in favor of good roads, urging that the class of paving used by Fullerton (Warrenite) be used instead of cement.

**Program Committee**  
When adjournment was taken, it was taken without date, except that a meeting should be held next month, at the call of the chairman, the date following the completion of constitution and by-laws by the committee appointed for that purpose.

Prof. L. E. Plummer of the Fullerton High School, H. M. Adams, Anaheim, and W. H. Seamans, Yorba Linda, were appointed a committee to arrange a program for the next meeting.

Supervisor Wm. Schumacher announced that the plan to create a road improvement district in the north end of the county would be revived at the next meeting and he suggested that the program committee arrange for a discussion on the direct tax plan as against the bonding method.

Postmaster Overshiner says that the parcel post maximum weight to Panama has been increased from 20 pounds to 50 pounds.

**SEBASTIAN'S Santa Ana****Owners' Approval Is Like a Rousing Cheer**

The Cleveland Six, from coast to coast, is establishing its place in motor-dom. The bitter cold days of the Northern winter have proved its ease of starting, just as the hot summer days, when hundreds of new Cleverlands were being driven across the country, proved the perfection of its radiation.

The Cleveland Six is in the hands of owners all over the United States today, and the chorus of satisfactory approval from these owners is like a rousing cheer. They say the car surprises them, pleases them, delights them. Its pliant power, its simple ease of handling, its boat-like comfort, surpass all

expectations. If you hope and plan to start the new season with a new five-passenger touring car which is a real six, or such a car of roadster type with wide, deep seat of restful cushioning and plenty of stow-away space, then come in and see the Cleveland Six.

A study of this car will interest you.  
A ride in it will convince you.

## THE FOURTEENTH RESERVATION

There seems to have been a good deal of misconception connected with the fourteenth proposed reservation to the peace treaty, the only one to which Lord Grey takes particular objection in his letter to the London Times. This reservation is directed against the superior voting power given to the British Empire as a result of allowing the self-governing dominions to vote.

There are obvious difficulties on the part of both countries. The British view, as expressed by Grey, is that, "whatever the self-governing dominions may be in theory and the letter of the constitution, they have in effect ceased to be colonies in the old sense of the word. They are free communities, independent as regards all their own affairs."

This status is evident to anyone who followed the history of the big war. Canada, Australia, South Africa and the others went into the war voluntarily, raising whatever forces they saw fit, and paying their own expenses. Having played so manly an independent part, they naturally demand independent recognition in the society of nations, and the British government dares not oppose that demand, lest she alienate them.

Those votes, however, are hard for Americans to swallow. "Six British votes to America's one!" It looks bad. Yet it is not so bad as some critics have represented.

Those six British votes are only in the "assembly"; the legislative body of the League. In the "council" of nine, the administrative body which is expected to do most of the real work, Britain, like the United States, will have but a single member, with a single vote.

Moreover, as Grey suggests, the Covenant expressly provides that in matters of dispute, the parties to the dispute are not allowed to vote, so that in case of any dispute between the United States and any member of the British Empire, Great Britain would have no more to say than America.

It may be, as Grey adds, that in other matters, affecting either country only indirectly, the self-governing dominions "would in most cases be found on the same side as the United States." That, however, is hard to say.

Grey expressly says that Great Britain "would not object in principle to an increase of the American vote." If that were possible, it might be a good way out of the difficulty. But it hardly seems possible. For if the United States has more votes, will not France demand more? And Italy and Japan? Where will it end?

It seems fair to say that too much has been made of this matter. It ought to be sufficient to adopt a reservation making it quite sure that the six British votes could never be used against American interests, but modifying the rather offensive phraseology of the reservation as it stands.

## THE FAMILY TAX BILL

Congressman Luce of Massachusetts, estimates that federal taxation for the next fiscal year will amount to \$550 a family for everybody in the United States.

If he is anywhere near right, it is likely that state and local taxes will bring the total up to about \$750 a family. That is the tax bill, direct and indirect, of the hypothetical average family. Some will pay thousands of times that much, and others a fraction of it. But no family will escape altogether, and perhaps the majority will come nearer it than they themselves realize. A good deal of federal taxation is levied in the form of corporation taxes, excess profit taxes, internal revenue taxes and other forms of indirect taxation, but it comes out of the family purse just the same.

Two dollars a day paid by the average family in taxes alone! Certainly here is an argument for greater economy in public expenditures, and for greater interest in public affairs by the people who pay the bills.

## PERSONAL WEALTH

The old nursery jingle which explains that little girls are made of "sugar and spice and all that's nice" and that little boys are made of "rats and snails and puppy dogs' tails" may perhaps have had some slight foundation in fact. For here comes someone who professes to know what human beings are made of. As quoted in The Survey, the

ingredients are something like this:

"The average man of 150 pounds contains constituents equivalent to 100 dozen eggs, enough iron to make four ten-penny nails, fat contents sufficient for 75 candles and a good-sized piece of soap, phosphorus for 8,064 boxes of matches, enough hydrogen (in combination) to fill a balloon and carry him above the clouds, and besides all this, ten gallons of water, six teaspoonsful of salt and a bowl of sugar."

Of course, these are only "equivalent constituents;" but is not the reader reminded of a grocer's and chemist's inventory.

There is an element of comfort in it, too. At present prices, the poorest man must be worth a very respectable sum of money.

The male students of the University of Cincinnati have formed an "Apollo Defense League" to resist feminine wiles in this perilous year. If they deserve the name, they won't have a chance in the world.

There's one kind of wealth that men have stopped bragging about since January 17. Owners of "private stocks" are so modest they don't say a word about them.

A peace treaty referendum taken among American colleges shows a big majority in favor of ratification with compromise reservations. College students have more sense than people used to think.

If the United States navy were the German army, there couldn't be any fuss about medals, because they'd all have them.

Uncle Sam could afford to help a lot more Bolsheviks celebrate "Old Home Week" back in dear old Russia this year.

Pretty soon prosperous citizens will be busy borrowing money to pay their income taxes.

## Education

Visalia Delta

We noticed an epigram the other day which read, "With education you get \$4 per day; without it, \$8."

Without intending to cast any reflections upon the occupations of men who have been unable to secure more than a common school education, nor upon the necessity of their services, nor upon the amount they are demanding therefor, it does seem obvious that there are occupations and professions which demand an unusual degree of higher education in order to serve the public. One such occupation is teaching.

In teaching lies the very fountain head of democracy. It is the stream that nurtures citizenship, and provides the common school education that is essential to all, whether they be laborers, artisans or professionals. It is the splendid service which dissipates the black cloud of illiteracy, and advances morality and intelligence. Surely you will all admit that a laborer in such a field is worthy of his hire!

But do we give it to these devoted men and women, who, with very little complaint, continue to devote their lives to the children of the nation, receiving inadequate salaries while they see about them tremendous increases in nearly every other occupation, a square deal.

Referring back to our epigram, we find in Visalia that a young teacher, after preparing herself at a normal school or in college, must take a position at \$550 per year. If she stays in the service she may hope ultimately to receive \$1050. There are good teachers in the Visalia schools, some of whom have served over 25 years, who receive that sum. Figured down to a day basis, this is very close to \$4 per day.

On the other hand, we read a notice in the Visalia papers that on and after February 1, the day wages of teamsters shall be \$8 per day. This is the other sum mentioned in the epigram.

Is this discrepancy fair, right or wise? Is educating our children less essential than hauling our freight and supplies?

We noticed also that a young assistant librarian in Visalia is about to leave for Modesto, because she can get a better salary there. She was receiving here \$70 per month, performing a very valuable educational work which requires education and special training.

The salaries we are paying for critical and indispensable services along educational lines must be made to bear some correct relation to living costs and wages in the trades, if we hope to keep up the present high standard of American citizenship.

The words of Lincoln, Washington, Franklin, Jefferson have often so spoken down the years, holding the American people to their ideals.

The words also of Theodore Roosevelt, spoken in his prime, cry aloud to Americans of the duties of citizenship in this troublous period. At a time when the world is restless, ill at ease, squandering its precious treasures of time and power—a perverse generation seeking for a sign—how clear a call comes from a bit of advice given by Roosevelt to his Rough Riders:

"Get into action. Do things. Be sane. Don't fritter away your time. Create. Take a place wherever you are—and be somebody."

## There's Plenty for Both

## The Force That Moves

It is right to dwell carefully upon the constitutional aspect of the League of Nations. But we shall never get very far unless we recognize that the thing has its spiritual as well as its legal side, and that of the two, the spiritual is not the less important.

There is striking recognition of this fact in a proclamation issued by the premiers of Great Britain, Canada, South Africa, Australia, Newfoundland and New Zealand, to all the citizens of the British Empire. Declaring that neither material force nor science nor diplomacy nor prosperity is the real foundation for the ordered development of the world's life, the proclamation says:

"These things are in themselves simply the tools of the spirit that handles them. Even the hope that lies before the world of a life of peace, protected and developed by the League of Nations, is itself dependent upon something deeper and more fundamental still. The co-operation which the League of Nations explicitly exists to foster will become operative insofar as the consenting peoples have the spirit of good will, and the spirit of good will among men rests on spiritual forces; the hope of a brotherhood of humanity reposes on the deeper spiritual fact of the 'Fatherhood of God.'"

This message would be impressive if it came from religious leaders. It is all the more so, coming as it does from the political heads of the empire. They end with an appeal to "men of good will" everywhere, taking account of their "personal responsibilities in relation to the reconstruction of civilization," to consider these spiritual forces, which are "the one hope for a permanent foundation for world peace."

There ought to be a similar appeal to "men of good will" in every country, and particularly, just now, in the United States. Without treaties and laws are as sounding brass and tinkling sibilant. Good will is the force that moves civilization—when it does move.

More than that, good will, despite the sneers of cynics and misanthropists, is the strongest, most durable and, in the long run, the most dependable force in human nature. It is sometimes dulled, but never dead. On its arousing depends all real progress. If it is aroused now, it will be more effective in ushering in an era of peace and making the League of Nations workable than all the armies and navies and all the articles and reservations in the world.

## Worth While Verses

### Bolshe Viki

(Written by FAITH BALDWIN for the National Security League.)

"What are the sirens shrieking for?" said Percy Parlour-Red.  
 "To speed the guest, to speed the guest," the Loyal Native said.  
 "What makes you smile, so grim, so grim?" said Percy Parlour-Red.  
 "I'm thinkin' of a muzzled hound," the Loyal Native said.

For they're shippin' Bolshe Viki, you can hear the engines purr,  
 They're weighin' of the anchor, an' the decks are all a-stir,  
 They've pinned a number on him, an' they've branded him a cur,  
 An' they're shippin' Bolshe Viki in the mornin'.

"What makes the People mutter so?" said Percy Parlour-Red.  
 "They're wakin' up, they're wakin' up," the Loyal Native said.  
 "What makes that fellow gulp and quake?" said Percy Parlour-Red.  
 "It's his turn next, it's his turn next," the Loyal Native said.

They are shipping Bolshe Viki to a port beyond our ken,  
 They have taken Bolshe Viki with his poisoned tongue and pen,  
 And he'll sail in half a minute, the despised of decent men,  
 O they're shippin' Bolshe Viki in the mornin'!

"His speech was very fine to hear," said Percy Parlour-Red.  
 "My ears are deaf to traitor-talk," the Loyal Native said.  
 "I shook his hand not long ago," said Percy Parlour-Red.  
 "Then wash your own of alien dirt," the Loyal Native said.

They are shipping Bolshe Viki to a far, unknown place,  
 For he smirched the Flag that welcomed him, and spat in Freedom's face,  
 And there's thousands like him still at large—America's disgrace,  
 While they're shippin' Bolshe Viki in the mornin'!

"What's that blood against the sun?" said Percy Parlour-Red.  
 "The Bolshe Viki brand of flag," the Loyal Native said.  
 "What's that that whimpers from the deck?" said Percy Parlour-Red.  
 "The Yellow Streak, that's sailin' now," the Loyal Native said.

For they're done with Bolshe Viki, an' his serpent breed must go,  
 The People, they are thinkin' hard—but thinkin' very slow!  
 Ho! America must arm herself to fight an unclean foe,  
 An' be shippin' Bolshe Viki every mornin'!

## THE CHEERFUL CHERUB

I sympathize with subway trains  
 That live beneath the ground.  
 I hope they let them up at night  
 To breathe and look around.

## Caught On First Bounce

By S. E. Greene

The Elks of Glendale did a handsome thing the other day, and one that we'll warrant they got a heap of enjoyment out of too. They heard of a poor widow up in Bouquet Canyon who couldn't afford even a shanty, so had to live in a tent while trying to homestead some land. The Elks piled in their autos one Sunday morning, laden with lumber sawed to lengths, tools, nails, and other necessities, including their wives or sweethearts and a generous lunch and drove to the widow's ranch and nearly gave her heart failure by building a little house for her, all painted and ready to move into, in half a day. Then they sat down and all enjoyed a feast with her and her youngsters. If they didn't get more genuine pleasure out of making her happy than they ever did out of any pleasure they ever planned for themselves, then we miss our guess. The old story still holds true, that the way to find the blue bird is right at home, doing something to make somebody else happy.

A large acreage of peanuts is being planted at Corona this year, probably in anticipation of this being a political year.

Chickens were hatched in incubators in Egypt 4,000 years ago, says the editor of the Corona Independent, and he adds that he thinks he had the right hind leg of one of those birds at a cafeteria the other night.

The "Eligible Bachelors" column of the Santa Barbara Morning Press is about the best fun we have seen yet. In it the various bachelors of the community are described humorously in detail for the edification of the girls who may be looking for mates to lasso this leap year. And the best part of it is that none of the fellows who are written up can get offended at the fun, for the whole town is laughing at it. Already merchants are offering prizes for the first bachelor captured from the list as written up. One lawyer offered a divorce fee as his contribution to the prizes, but his offer was held up until it could be determined better whether it would be needed or not.

The state entomologists at Upland announces that a vigorous campaign is to be waged this year against the mealy bug pest and the Argentine ant pest. Some attention should also be paid to the Mexican uncle pest, old man Carranza. A few magazines full of pest eradicator poured in his hole and a match touched to it might do a lot of good.

A street preacher at El Centro who was trying to demonstrate when the end of the world was to come, got into a long argument with one of his hearers who didn't

agree with him. Can you imagine anything more nearly nothing in occupations than arguing with a street preacher as to when the world will come to an end?

A little boy in Sunday school at Ontario, in answer to the teacher's question as to what an epistle was, said he guessed it was the wife of an apostle.

Oil has been struck within ten miles of Corona, and the residents of that city can already smell the odor of profits from oil under their own soil.

Job and news print paper advanced only twenty per cent in price during January, but it hurt the printers just like sixty.

## GRINS AND GROANS

**The Third Estate**  
 Schrecher—"He was a wise poet who remarked that in this world a man must be either anvil or hammer."  
 Peacham—"Oh, I don't know! It seems that most of them are merely bellows." —From the Edinburgh Scotsman.

**A Martyr To the Cause**  
 "What killed him?"  
 "Liquor."  
 "You surprise me."  
 "Yes, he dropped dead while making a prohibition speech." —From the Houston Post.

"What did that stingy Brown give his girl?"  
 "A ring."  
 "A ring?"  
 "Yes, a ring on the phone." —Florida Times-Union.

Mistress (nervously)—I do hope the place will suit you.  
 New Maid—Well, the house is not bad, and I rather like the look of the policeman on the beat, but if I stay here you'll kindly take them horrible pictures down. —Houston Post.

### Program at Corona Club

At the regular meeting of the Corona Women's Club in Corona yesterday, Mrs. H. M. Sammis and Mrs. Alva J. Padgham presented a splendid musical program, by request of the Corona ladies.

Two groups of McDowell numbers and several Cadman compositions were beautifully given by Mrs. Padgham. The entire program was arranged by Mrs. Padgham and Mrs. Sammis with the view to bringing out the excellence in the work of many of the American composers, and it was very successfully accomplished.

Mrs. Sammis very pleasingly gave the following solos:

"An Open Secret," (Woodman); "Corals," (Bryceon Trehan); "Hay Fields and Butterflies," (del Riego); "Oh, Heart of Mine," (Galloway); "The Land of the Sky Blue Water," (Cadman); "By the Waters of Minnetonka," (Lieuance); "Yesterday and Today," (Stross); "Song of Sunshine," (Turner Maley); "Lullaby," (Gertrude Ross).

Mrs. Sammis also gave a very good talk on the Americanization of Music.

At the close of the delightful program, Mrs. Padgham and Mrs. Sammis were honor guests at a charming tea given by the ladies of the Corona Club, who expressed great appreciation of the afternoon entertainment.

### Meeting Postponed

The meeting of the Busy Bees previously scheduled for Thursday last has been postponed for one week to Thursday, Feb. 19, and will be held at the home of Mrs. Will J. Lindsay, 801 East Third street, it was announced today.

### W. C. T. U. Meeting Held

The W. C. T. U. held a very interesting and profitable meeting yesterday afternoon at the home of Mrs. Barker, 1110 Spurgeon street, a change being necessary on account of sickness in the home of Mrs. G. P. Hill. A number of ladies met in the forenoon and a nice amount of sewing was done for the infant box. Mrs. Winslow led a helpful devotional service calling attention to a number of devoted mothers mentioned in the Bible and their efforts to do the best possible for their children.

Mrs. Anderson spoke about the Americanization work being carried on in our schools and told about how hungry the little girls in one of our schools, where there are Mexican children, are for a dolly and asked for discarded dollies to give to these little girls.

Mrs. Anderson also asked for clothing for both children and adults. Anyone having clothing or dollies, please telephone Mrs. J. N. Anderson and she will call for the articles.

Mrs. John Oliver had charge of the program. Subject, "Children and Disobedience."

Mrs. Oliver gave a very illuminating talk on the subject and brought out very many helpful ideas about the training of children. It is to be regretted that there was not a large attendance of young mothers present to receive help and inspiration from Mrs. Oliver's talk.

A lively discussion among the ladies present followed, bringing out some points not touched on by Mrs. Oliver.

The next meeting is the Willard Memorial and will be held in the First Christian church, February 24.

### Married in Bower of Bloom

Miss Mildred Kennedy of Los Angeles, became the bride of Floyd Geyer of Calexico, formerly of this city, last night, the wedding taking place at the Los Angeles Westlake M. E. Church, where in a bower of deep yellow blossoms Dr. F. D. Howe, the church's former pastor, officiated at the ceremony, at which 250 guests were witnesses.

The bride, who is the daughter of Mr. and Mrs. Edwin D. Kennedy of South Bonnie Brae street, Los Angeles, chose a wedding gown of bridal satin, en bouffant, with shoulder train. Her tulle veil was caught with orange blossoms and her shower bouquet was of lilies of the valley and bride roses. Miss Louise Phelan, her maid of honor, wore salmon pink chameuse trimmed with old lace and pearls and she carried a sheath of Ophelia roses. Miss Kennedy's bridesmaids, the Misses Lucile Geyer, sister of the groom of this city, La Vange Phelan and Dorothy Kennedy, wore organdie frocks of pastel shades, embroidered and finished at the waist with rainbow sashes. They carried sweet peas.

Charles Geyer, a brother of the

## Plenty of Style But No Styles In Paris, Verdict for Modiste

NEW YORK, Feb. 10.—Paris is showing plenty of style, but no styles. That is the verdict of Madame Frances, the well known modiste, who has just arrived on the steamship Adriatic.

"There are no new styles in Paris," she said. "In the afternoons you walk down the avenue and you meet the women of Paris."

"One dress seen in the night cafes," she said, "is cut v-shaped on four sides. It leaves the wearer bare nearly to the waist. They would not dare to wear it in America but they would suggest the same effect with a piece of flesh colored crepe."

There is more variety in French millinery than in gowns, however, Madame Frances found. Hats, she says, were never so beautiful or so high priced. Gloves of black kid are the mode at present. They are very long. The modiste took from a box a pair of filmy hose, saying:

"Here is the latest in extravagance. These are of tulle. They cost \$20. If one is real careful they'll last long enough to wear maybe half a dozen times."

She exhibited several other dainty trifles, such as would delight the heart of any woman—handkerchiefs with lace butterflies worked into the corners, hand-embroidered linens, flimsy pink things.

bridgroom, served as best man, while the ushers included Russell Edmondson, Wallace Trigg, Elmer Horsley of Riverside, Dr. Alfred Thiele, Little Almarin Adams served at flower maiden.

Prior to the ceremony Mrs. Ellis Kennedy sang "Calm as the Night," with M. Sibley Pease at the organ. Mr. Geyer is a son of Henry Geyer of Santa Ana. He takes his bride to Calexico to reside, leaving some time today.

### Jolly "Hardtime" Party

A number of the members of the younger set in this city and Balboa went to Sunset Beach last evening in trucks to take part in a jolly "hard time" party at the home of Miss Elise Armitage. Clothes in extreme stages of dilapidation were very much in evidence, and a number of the members of the party were dressed in overalls, adding greatly to the gaiety of the evening.

As many of the members of the party going from this city are musical, many musical instruments were taken and an enjoyable evening spent in dancing.

Those who went from Santa Ana were Misses Elsa Neals, Margaret and Jimmie Flagg, Ralph Kellogg, Verne Kellogg, Harold Chapman and "Slim" Bartlett.

**Music Section Meets**  
The Music Section of the Ebell Club met on Monday, February 9, at the home of Mrs. A. J. Padgham. The minutes of the previous meeting were read and approved and a number of musical items were given by the members, and their guests, after which Mrs. Padgham took charge of the program, which was devoted entirely to compositions of Edward McDowell, our greatest American composer.

Miss Owens played a group of three numbers, "The Shadow Dance," "To a Water Lily," "In Autumn."

Mrs. Padgham, in a few kindly and appreciative words, then introduced Mrs. Putnam, president of the McDowell club of Los Angeles, and former pupil of Mr. McDowell, who

very delightfully entertained the company with incidents in the life of Mr. McDowell and happy reminiscences of her student days under his instruction.

Having enjoyed the personal friendship of both Mr. and Mrs. McDowell and having spent some time at their home in Peterborough, N. H., Mrs. Putnam was well qualified to speak on the subject and was listened to with close attention.

Miss Leonora Tompkins followed with two piano solos, "Starlight" and "Nocturne." "An Indian Lodge" was played by Mrs. Padgham, which closed a very delightful program.

### Celebrates 14th Birthday

Winton Hoyle, son of Mr. and Mrs. Norman Hoyle, was made happy yesterday afternoon when his parents entertained a number of his friends at his home, 1419 Durant street, in celebration of his fourteenth birthday.

At six o'clock, dainty refreshments were served at a table upon which kewpies and a profusion of hearts gave a pretty suggestion of St. Valentine's Day.

Taking part in the festivities were Enid and Gerald Twist, Susie Temple, Katie Benton, Newton Pierce, Howard Law and the honoree, Winton Hoyle.

### Delta Alpha Party

Miss Myrtle Meyer very delightfully entertained the Delta Alpha class of the First Methodist Sunday school yesterday evening at her home, 429 South Broadway.

Valentine decorations featuring pretty red hearts were used in the cozy rooms. A short business meeting was held, presided over by the newly elected president, Miss Beulah Stone. The time passed enjoyably with jolly games.

Delicious ice cream and cake were served by the hostess, assisted by her sister, Mrs. Palmer. Twenty-seven were present to enjoy Miss Meyer's hospitality.

### Tustin Twelve Meets

Members of the Tustin Twelve sewing club spent a most delightful time yesterday afternoon with Mrs. Charles Johnson, 610 East Third street.

In the decorations, red hearts and valentines were used in combination with violets and blue hyacinths, giving a very effective setting for the jolly affair.

Fancy work, conversation and music served to pleasantly while away the afternoon, at the close of which refreshments were served upon dainty trays.

Beside the hostess, the ladies who spent the afternoon together were Mesdames Chas. Artz, Chas.

Sauers, Chas. Mueller, John Sauers, W. R. Suddaby, Otis Bridgeford, John Gould, Albert Fuller, J. S. House and Fred Morehead. Guests of the club included Mesdames Charley Ward, L. A. Mayfield, Bessie McDonald, Masters John Vernon Sauers and Avery Johnson.

**Tell Children of Lincoln**  
Mrs. O. Rodriguez will speak to the children of the Santa Fe street school on Friday morning, telling them in Spanish about the life of Lincoln.

## BIRTHS

**PARKER**—To Mr. and Mrs. C. Parker of Buena Vista street, a seven-pound girl, February 10th.

## DEATHS

**ROGERS**—In Santa Ana, Cal., Feb. 10, 1920, at her residence, 839 North Broadway, Mrs. Lurena A. Rogers, aged 57 years, wife of Solomon Rogers, and mother of Floyd B. and Frank M. Rogers. Services will be held at the Mills Temple, Howard Law and the honoree, Winton Hoyle.

## PERSONALS

Mrs. Fred McLellan and Miss Gertrude McLellan of Los Angeles are visitors at the home of Miss Minnie McLellan, 1501 Durant street.

Mrs. E. J. Edgington has been called to McCracken, Kans., by illness of some members of her family.

Mrs. Laura Murphy of Salmon, Idaho, is visiting at the homes of Miss Ida Reed, Mrs. Mary Chapman and her niece, Mrs. J. W. Vawter.

Mrs. Buchheim, sister of A. R. Burns, left Sunday morning for Eldon, Iowa, where she was called by the serious illness of her brother.

# Large Crowds Will Attend Great Race To Be Held On New Beverly Speedway

**Car Must Go Eighty-five Miles An Hour to Stay on Track**

That the greatest crowds that ever witnessed a racing event of any kind in California will be in attendance at the Los Angeles races beginning Monday, February 21, on the new Beverly Hills speedway is indicated by the stream of inquiries from this and other states that is already pouring in upon Manager A. M. Young.

The fact that the Beverly Hills course is the last word in racetrack construction and is built so that no car can compete upon it unless an average minimum speed of eighty-five miles an hour is maintained has created a great deal of comment. Even if no records are broken—and those who know most about auto racing say quite a few will be

—the public can be sure of seeing races that will average considerably faster time for every car entered than has ever been the case before.

Although only a few of the entries have been made public to date by Manager A. M. Young, from those that have already been announced it can already be seen that competition will be fast and furious. Devil take the hindmost with such veterans as Charles Durand, Tommy Milton, Roscoe Seabury, Joe Thomas and K. V. Goodson in the running! Right now, according to Young, it looks like more entries were going to be received than can be handled. This will necessitate elimination trials, in which the average speed may run as high as 100 miles an hour, it is said.

Many motorists who forego the pleasure of witnessing speed events on account of the traffic jams that have always in the past been incident to such competitions, will flock

# Cravath to Trade Rixey For Zimmerman, Douglas, McCarty, Hubbell, Rumor

That C. C. ("Gavvy") Cravath, manager of the Philadelphia National League Baseball club, at present in the Quaker City, is making a determined effort to bring about a deal whereby Eppa Rixey, noted mainstay as a pitcher with the Phillies, will be traded for Catcher McCarty, Third Baseman Heinie Zimmerman, Pitcher Phil Douglas and Pitcher "Speed" Hubbell, all of the New York Giants, was reported here today on apparently reliable information.

Not only will Cravath do his utmost to consummate the deal, but it is virtually assured that the trade will be made, it was stated.

Should the "swap" be made, Cravath will lose a star pitcher, but will secure instead, one of the strongest quartets of players in the National League.

Rixey, who has been with the Philadelphia Nationals for six or seven years, was the principal reliance of the club with Grover Cleveland Alexander in 1915, when the Quaker City team won the National League pennant. Rixey was a first lieutenant in the gas department of the army during the war. He has been much sought by various baseball managers and last year "Muggsy" McGraw of the Giants left no stone unturned to secure him.

**Batter .339**

Catcher McCarty in 1917 played 55 games with Brooklyn and 25 with the Giants, making a batting average of .339, and tying with Hal Chase for second place in the list of national league batters.

Heinie Zimmerman, noted for his eccentricities, is famous for the "home-head" play he executed in the world series of 1917 between the White Sox and the New York Giants when he tried to run down Eddie Collins between third base and the home plate instead of throwing the ball home, and as a result chased in the winning run. Throughout his career he has been a consistent .300 hitter. In 1917 he batted .286 for the season.

"Shufflin' Phil" Douglas was the man secured by McGraw last year from the Chicago Cubs for Outfielder Robertson, one of the stars in the National League. Late during last season Douglas went "A. W. O. L.", and Muggsy declared he would never intercede to have "Shufflin' Phil" reinstated. The fact that McGraw did relent however, and have Douglas restored to standing, indicates, it is believed, that the Giants' foreman had a trade in mind, and lends color to the report that Rixey is about to figure in a big trading deal with the Giants.

**Toronto Star**

Pitcher Hubbell was purchased by McGraw last year from the Toronto International League Club, in which circuit he was a star.

In Philadelphia at present it is expected that Cravath will clear all mysteries concerning the personnel and make-up of the Phils.

He will also affirm or deny the report that Fred Luderus is to be succeeded by Gene Paulette on first base.

Baseball fans note that this is the first time in many years that the Philly foreman has been lured away

States. Meanwhile, I would not be surprised to hear that Dempsey would come to Europe, where he could make big money in exhibitions.

NEW YORK, Feb. 11.—"I have nothing to say at this time," Tex Rickard said here today, when asked about the announcement of M. Descamps, manager of Georges Carpentier, that he was almost sure of landing the Dempsey-Carpentier fight.

Rickard admitted sometime ago that he was in the field for the championship match and intimated that there was truth in the report prevalent for sometime that he had obtained the promise of Dempsey's service in his next fight before the fight at Toledo last July, when he became champion.

Pitcher Harry Poulson, secured from Detroit, has signed his contract.

## The Razor

# Lincoln used

THE razor Lincoln used was not unlike the man himself—in outward form, unassuming, and yet an instrument of exquisite balance—with a time-saving length of blade, a fresh, keen-stropped edge for the work in hand and a wondrously even temper.

One pictures Lincoln as full of affection for this honest blade despite the fact that his deep-furrowed face was not the easiest to shave. The only things that Lincoln's razor really needed to lighten the patient morning task were the safety and convenience of the guarded, double-edged blade of the

# DURHAM-DUPLEX

## A Real Razor—made Safe

The time-tested heft, the splendid temper and shape of the razor Lincoln used—but it won't cut your face. Furthermore, it's the longest, strongest, keenest, best-tempered blade on earth, with more shaving mileage than any other razor. And when this two-edged blade has dulled, keep it for sharpening in a spare moment. You can strop it—you can hone it—why throw good steel away? Seven million shavers have seen the good sense of adding all these extra advantages to the acknowledged good points of their old razor. Go to your nearest dealer and join these seven million practical men today.

# CARPENTIER TO BOX DEMPSEY ANNOUNCED

PARIS, Feb. 11.—Tex Rickard, American fight promoter, who staged the Dempsey-Willard fight, undoubtedly will put on the next world's championship contest between Jack Dempsey and Georges Carpentier, according to M. Descamps, manager of the European champion.

Descamps, after announcing today he had received assurance that Rickard had signed Dempsey, said he probably would sign with the American promoter as soon as he arrived in America late in March.

In securing the signature of the world's champion, Rickard has outdistanced Theodore Vienne, Charles B. Cochran and William Fox, who made big offers for Carpentier's services, but were unable to get Dempsey's name on the agreement, he said.

Descamps left today with his charge for a week's exhibition in Monte Carlo, following which they are to take a tour of Italy. Before leaving, Descamps in an interview, said he hoped with his statement to clear up the situation and permit the American fans to know the real situation.

"We will undoubtedly sign with Dempsey through Tex Rickard, as soon as we arrive in America," he said. "Developments have reached such a stage that I can announce the receipt of a message from Rickard on December 20 last, in which he gave assurance that he had signed Dempsey. Showing Dempsey's signature, through his representative here, he offered to come to Paris and sign with me. I replied then it was unnecessary, as Chas. B. Cochran, London promoter, had an option on Carpentier's services until February 1, and that as we were due in America shortly after that we could complete the negotiations there.

"Cochran is due from England today, but I feel sure he has failed to secure Dempsey's signature, and thus I am practically sure Rickard will stage the fight.

"All the persons who are claiming options on the Frenchman's services are not correct. For instance, Theodore Vienne, Paris, and William Fox, New York, who made huge offers, got only the promise of the champion's services if they were able to sign Dempsey before we left for America. This I consider impossible, since Rickard has signed him.

"This morning I cabled Rickard authorizing him to arrange matches for the two French champions, Charles Ledoux and Georges Papin, who are leaving with Carpentier and myself on the Lorraine from Havre on March 13.

"Carpentier's program in the United States calls first for a trip to California, where he will be engaged in motion picture work and will strive to master the English language. On May 3, we are to start a ten week's exhibition tour in vaudeville. This should allow us to get acclimated and by the time the exhibition tour is completed all details of the championship fight will have been settled.

"We will then decide whether to return to France or train for the fight or remain in the United States."

## STOP ITCHING SKIN

Zemo, the Clean, Antiseptic Liquid, Gives Prompt Relief

There is one safe, dependable treatment that relieves itching and soothes the skin. Ask any druggist for a 35c or \$1 bottle of Zemo and apply it as directed. Soon you will find that irritations, pimples, blackheads, eczema, blotches, ringworm and similar skin troubles will disappear. Zemo, the penetrating, satisfying liquid, is all that is needed, for it banishes most skin eruptions, makes the skin soft, smooth and healthy.

In severe cases, Zemo, the Clean, Antiseptic Liquid, gives prompt relief. It is the E. W. Rose Co., Cleveland, O.

# Get Back Your Grip On Health

Physician Gives Practical Advice on What to Do To Help Build Up Your Strength Power and Endurance—Explains

How Organic Iron—Nuxated Iron—Helps Put Renewed Vim and Energy into the Veins of the Weak, Nervous and Run-Down—

"Thousands of men and women are impairing their constitutions by themselves open to illness and literally losing their grip on health simply because their blood is thinning out and possibly starving through lack of iron."

To possess the power, energy and endurance that win the blood should be rich in strength-giving iron. For this purpose physicians prescribe organic iron—Nuxated Iron—which by enriching the blood and creating thousands of new red blood cells often quickly transforms the flabby flesh, toneless tissues and pallid cheeks of weak, anemic men and women into a glow of health. It increases the strength of delicate, nervous, run-down folks in two weeks' time in many instances.

In explaining why he regards iron as absolutely essential to the greatest development of physical and mental power, Dr. George H. Baker, formerly Physician and Surgeon, Monmouth Memorial Hospital of New Jersey, says: "Refined foods and modern methods of enriching the blood and creating thousands of new red blood cells often quickly transforms the flabby flesh, toneless tissues and pallid cheeks of weak, anemic men and women into a glow of health. It increases the strength of delicate, nervous, run-down folks in two weeks' time in many instances."

Iron is today being used by over three million people annually as a tonic, strength and blood-builder, in its greatest development of physical and mental power. Dr. George H. Baker, formerly Physician and Surgeon, Monmouth Memorial Hospital of New Jersey, says: "Refined foods and modern methods of enriching the blood and creating thousands of new red blood cells often quickly transforms the flabby flesh, toneless tissues and pallid cheeks of weak, anemic men and women into a glow of health. It increases the strength of delicate, nervous, run-down folks in two weeks' time in many instances."

Commenting on the use of Nuxated Iron as a tonic, strength and blood-builder, Dr. Francis Sullivan, formerly physician of the Bellevue Hospital (Outdoor Dept.), New York, says: "Nuxated Iron, the fact that Nuxated Iron is today being used by over three million people annually as a tonic, strength and blood-builder, in its greatest development of physical and mental power. Dr. George H. Baker, formerly Physician and Surgeon, Monmouth Memorial Hospital of New Jersey, says: "Refined foods and modern methods of enriching the blood and creating thousands of new red blood cells often quickly transforms the flabby flesh, toneless tissues and pallid cheeks of weak, anemic men and women into a glow of health. It increases the strength of delicate, nervous, run-down folks in two weeks' time in many instances."

Numbers of nervous, run-down people who were ailing all the while have most astonishingly increased their strength and endurance simply by taking iron in the proper form. And this after they had, in some cases, been doctoring for months without obtaining any benefit.

Manufacturers' Note: Nuxated Iron, recommended above, is a potent remedy for anemia and is known to druggists everywhere. Unlike the other iron tonics, it is easily assimilated, does not induce the strength of American people, and is entirely satisfactory results to every purchaser of it they will refund your money. It is dispensed in this city by Rowley Drug Co.

## Hey Fellows Look! Got a New Suit—

It's a regular one too—believe me. Ma got it for me at Vanderma's "Boys' Shop." Coat's got a belt all way around—see these slash pockets and just take a look at this lining—ma calls it mohair. And boy—notice that snug fit up around the collar and shoulders—you remember how that old suit of mine always looked; just as if the coat was about ready to drop off my back.

The pants are all O. K. too. They're lined and the seams are all taped. They'll wear about twice as long and won't rip so easily. It's an all wool suit too—'cause ma says so and she knows.

Sure—they've got all kinds and all prices. Some at \$14.75, others at \$16.50 and \$17.50 and I saw a few at \$20.

Better tell your ma that you want to get your next suit at Vanderma's "Boys' Shop." And say—did you see their boys' window? It has everything a boy needs in it; belts, suspenders, collars, stockings, shirts, caps, etc.

## ROUND-ABOUT ORANGE COUNTY

By the Register's Roundabout

Some one has said that the man of imagination is the man of genius; that, having seen a leaf and a drop of water, he can construct the forests, the rivers and the seas; and that in his presence all the cataraacts fall and foam, the mists rise, the clouds form and float.

I mentioned in my last article that men dreamed and are still dreaming. Man has dreamed from the day of his creation. He has imagined many things, false and true, but his dreams have buoyed him on; through fires and floods, on unknown seas and land; that glorious something of which he dreamed, to him was "a cloud by day and a pillar of fire by night;" and when in the midst of disaster, when friends had forsaken, broken in sorrow and tears, on the far horizon of his hopes would burst anew a vision of his dreams that beckoned him onward and upward.

Columbus was a dreamer, a man of imagination, a genius. The pioneers who blazed the way through virgin forests and grappled with the wild beast, to advance the onward march of civilization, were dreamers. As they toiled and suffered, they dreamed their dreams.

As I visit the homes in northern Orange County, in the beautiful Placencia district, with the evidence of prosperity everywhere, I have thought of the pioneers. The men and women who tilled the virgin soil and labored with their hands. As they toiled they dreamed, and I can imagine as the day closed with its meager returns for their toil, their faith was strengthened anew, as they gazed on the majestic mountains—God's great white temples—at the close of day, when the sun had dipped his golden disc into the Pacific, and in splendor sheen the dying rays blazed in gold the snow-crowned peaks.

A great world builder has said: "The imagination hath a stage within the brain whereon he sets all scenes that lie between the morn of laughter and the night of tears, and where his players body forth the false and true, the joys and griefs, the careless shallows, and the tragic depths of every life." What would life be without dreams?

**Placencia**  
Placencia is one of Orange county's growing towns with a very promising future. It is located in the northern part of the county, on the main line of the Santa Fe railway, in a beautiful citrus growing section. It has long been famous for its citrus fruits, but on March 30th, 1919, it awoke to new fame when the people of Southern California were more or less electrified by the announcement of the "coming in" of a brand new oil gusher in the Chapman orange grove northeast of Placencia.

The good news caused great excitement and crowds flocked to the rusher—and so did the big oil companies. The Union Oil Company was the godfather of this new field, their geologist having "wild catted" the Chapman gusher. The Standard Oil Company and the General Petroleum leased adjoining land and commenced drilling immediately. On August 25th, at a depth of 3175 feet, the Standard brought in its first gusher, and in September another at a depth of 3250 feet. October 28th, the General Petroleum made good at a depth of 3180 feet. New wells are coming in as fast as they can be drilled, and there are eighty or more in course of drilling. This new field promises to be one of the best oil-producing fields in Southern California.

**Town Started in 1911**  
The town was started in 1911 when the Santa Fe built its road through this section. It has made a steady growth in eight years, and the population is now estimated at 1000 or more. The town is not incorporated and is still a part of the Placencia district. The business section shows growth and some nice buildings have been erected. The resident section has grown rapidly within the last year, more than thirty new homes having been built, at an estimated cost of \$75,000.

"We have been pretty lucky in getting building materials," said H. S. Gaines, manager of the Gibbs

and deposits \$119,413.78, making the total deposits for the two banks \$601,066.57.

"The future looks very promising," said John E. Scott, cashier of the banks. "In the next six months the oil developing will be well along, and we will know what the future has for us."

"Some think we should go slow and wait awhile on road bonds," I said.

"There is no need of that," he replied. "We would only be losing time. But I am not in favor of voting bonds and then holding them too long."

The church denominations are Presbyterian, Mission and Nazarene.

**Building New Packing House**  
The Placencia Mutual Orange Association is building a new packing house. The building is 100x241 feet, with basement and main packing floor, to be equipped with new machinery throughout. The building is hollow tile and reinforced concrete. A good many of the packing houses recently built are of the mission design, but this will be the best in the state. The building will be eight-carload capacity.

The Mutual shipped during the last season 653 cars of oranges and 20 cars of lemons. It employs 125 people and the weekly payroll is \$2,000. There are 2,000 acres in the association.

"What do you think of the future in the citrus business around here," I asked the manager, H. O. Easton. "We'll be doing business when the rest have all quit," he replied. "When they can't raise oranges here, they can't be raised."

The Placencia Growers' Association shipped during the last season 600 cars. The manager, R. S. McKee, says the outlook for the present season is just as heavy. They employ 150 people and the weekly payroll is around \$2,500.

**Business Men Organize**  
The business men have organized into an association to be known as the Placencia Business Men's Association. The meeting was held at the B. & B. Cafe, where plans were laid for thirty-six. By-laws were adopted and the regular meeting date was set for the second Tuesday of each month. W. L. Rideout was elected president; O. C. Christensen and H. S. Leavitt, vice-presidents; Rev. H. P. Gage, secretary and treasurer; H. O. Easton, A. L. Porter and H. L. Luce were appointed as a committee to nominate members; A. S. Bradford, Roland Thompson, H. S. Leavitt, C. M. Roberts and H. O. Easton were chosen to represent Placencia at the Northern Orange County meeting to be held at Fullerton on February 10th.

"Do you plan to incorporate soon?" I asked Mr. Rideout, president of the Business Men's Association. "That is our intention," he replied. "We made application to the board of supervisors during the war, but they advised on account of the war to let the matter rest. Now the war is out of the way and we will again make application to call a special election within the next few months."

"What about business and improvements?" I asked. "We need new business buildings and dwellings," he said. "There is an opening here for a moving picture show, and we need a dentist."

**Banks Show Big Deposits**  
Placencia has two banks, the Placencia National and the Placencia Savings, under the same management and in the same building. The capital stock in the National is \$30,000. Application has been made to increase the capital stock to \$50,000. The deposits are \$481,672.79. The Savings bank's capital is \$25,000.

third and fourth, Linnea Nelson; first and second, Mrs. Clara M. Silva; first, Mrs. Ruth Zabel; nurse; sewing teacher, Mrs. Ollie Snell. "When I took charge at the beginning of the last school year," said Superintendent Riddlebarger, "the enrollment was 300, and this year the enrollment is 425. Our valuation in the district is \$7,000,000, and the increase with the present developments will make the total next year around \$10,000,000. This increased valuation will make lower taxes and better schools."

The church denominations are Presbyterian, Mission and Nazarene.

**Bradford Avenue**  
H. Schaller owns twenty acres on Bradford avenue, mostly oranges and a few acres of walnuts. "We have lived here for thirty years," said Mrs. Schaller, "and we are not rich yet," she added, smiling.

"Well, Mrs. Schaller, you are in the promised land, anyway," I replied.

"Promises don't keep anyone," she continued. "We came here when there was nothing but mustard growing. Land then was worth \$40 an acre."

"You have leased your land for oil purposes, I suppose."

"Yes, but oil doesn't bother me at all. The crops interest me the most."

Oscar Burnett, a native of Canada and of French parentage, owns twenty acres of oranges and walnuts. He came to Orange county two years ago for his health, the doctors having advised Southern California with its sunny skies and healing ozone.

He had followed the retail shoe business, but now takes to ranching like an old-timer. His health has come back and with it wealth, the oil companies having leased his land at a good price and one-sixth royalty. He has also bought ten acres near Anaheim and 8½ acres near Fullerton. These acreages have advanced in value.

"This is a wonderful place," said Mr. Burnett. "Just wonderful! There is not a place in the world like it. My son came from Canada to visit us at Christmas, and now, since he has returned home, he can't sleep at night, thinking of Orange county. He wants to come here to live."

C. E. Fuller owns twenty acres of oranges. The grove looks well and the crop on the trees is quite heavy. Mr. Fuller is attending a Bible Institute at Los Angeles, and was not

at home when I called.

A. Pierotti, vice-president of the Placencia National Bank, owns forty acres fronting Bradford avenue. They have a beautiful home. "We are interested in oil now," said Mrs. Pierotti. "Mr. Pierotti is in Los Angeles today on oil business. We have not leased yet, but most of our neighbors have. My friends ask me if I wouldn't be sorry to have an oil well come in and spoil so fine a home. I tell them no, we could rent this for apartments, or something. There is always plenty of ground on which to build a house."

**A Pioneer Builder**  
A. S. Bradford, a pioneer and public-spirited citizen, who has spent thirty years or more in Orange county, owns 55 acres in what they call the "home place," on Bradford avenue and Palm Drive, and 42 acres more in Placencia district, together with 1000 acres in the Imperial Valley. Mr. Bradford was not at home, having gone to the Imperial Valley. I was cordially received and invited into the home by his son, A. H. Bradford, who is manager of his father's property and interests. Mr. Bradford, senior, is a busy man. His land interests and new oil developments occupy considerable time. He has had charge of the exhibit for Orange county at the Orange Show at San Bernardino for eight years. Each year he features an attraction with considerable skill. The attraction this year is a big wheel eight feet in diameter that slowly revolves. The inside of the wheel is divided into sections to represent the spokes, on which is given a description of the resources of Orange county, such as citrus fruits, walnuts, beans, celery—in fact everything important that grows in this prolific wonderland—as well as the oil industry, etc. On the other side of the wheel is a map of Orange county showing the location of towns, good roads and paved highways. There will be a table displaying the many varieties of citrus fruits. It will be of interest to many to know that there are 140 varieties of citrus fruits grown in Southern California. Mr. Bradford is collecting these and will have them on display at the Orange Show.

**Placencia Oil Development**  
In discussing the oil development in this section, Mr. Bradford, junior, said: "The Petroleum Development Co. is drilling another well on this 'home place.' We have one well in operation now. It came in last December. It was a 600-barrel well, but it can't be pumped steady on account of sand, so it has to be pumped at intervals. It is averaging 300 barrels daily. About 80 wells are being drilled and 10 have been finished and are producing. Six are on steady production and each averaging now 600 barrels a day."

"What are you interested in around here besides oil and citrus growing?" I asked.

"Good roads," he replied. "We should do work and help to put them through."

"On what grounds do you base

your arguments, Mr. Bradford?" "They are a great benefit to the whole county," he replied—"to people living here and to people coming here. They are a great advertisement. Nothing attracts the outsider more than good roads. They increase the actual valuation of property, economically, and properties on paved highways are always more desirable for homes."

"Some have suggested that we wait awhile," I said.

"Well, it does not look like there will be any change for several years," he continued. "Most people, I think, would want to pave now on account of money being more plentiful."

**Boosts the Register**  
H. H. Ballantine has a fine ten-acre orange grove on Palm Drive. "I have taken the Register ever since I moved here three years ago. It is a fine, newsy paper and gives us lots of county news," he said. Mr. Ballantine's orchard is part in navels. The pickers were in the orchard when I called.

"Some growers take out the navels and plant Valencia. These trees look fine," I said.

"I do not intend to take them out," he replied. "Some of these trees brought me \$50 each last year. That's about \$4000 an acre."

Victor Lypps has about four acres across the boulevard from the Ballantine place. He also owns ten acres on Valencia boulevard that connects with Palm Drive.

**Refused \$6000 an Acre**  
Next to the Lypps place is a fine grove of ten acres in Valencia, heavily loaded with fine fruit, belonging to Earl Hemphill. At one time it was a part of the C. C. Chapman ranch, with whom Mr. Hemphill worked for twenty years. It is said by the neighbors that Mr. Hemphill refused \$6,000 an acre for this place just recently. Mr. Hemphill also owns ten acres of oranges on Chapman avenue, near Fullerton.

(To be continued.)

## THAT FADED FROCK WILL DYE LIKE NEW

"Diamond Dyes" Freshen Up  
Old, Discarded Garments

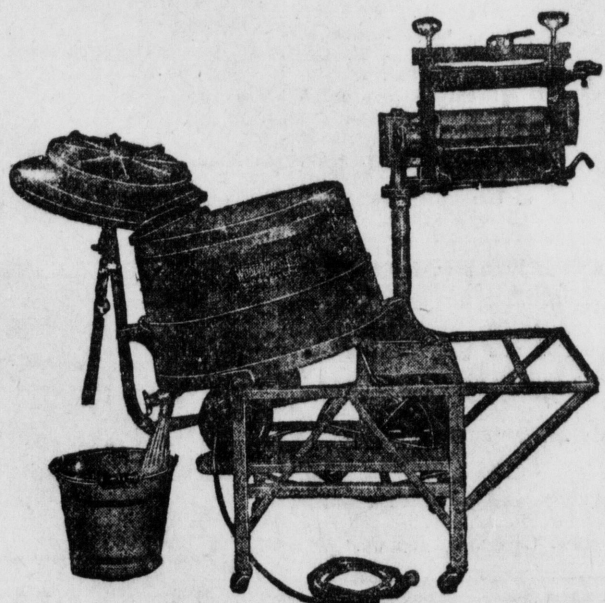

Don't worry about faded garments. Give "Diamond Dyes," guaranteed to give a new, rich, fadeless color to any fabric, whether it be wool, silk, linen, cotton or mixed goods—dresses, blouses, stockings, skirts, children's coats, feathers, draperies, coverings.

The Direction Book with each package tells so plainly how to dye that you can't make a mistake.

To match any material, have druggist show you "Diamond Dye" Color Card.

## We Offer You Your Choice of Several FAMOUS ELECTRIC WASHERS

We have  
a specialist  
for every  
job that  
leaves the  
store—  
At  
your  
service.

Don't select  
an Electric  
Washer  
until you  
see our  
lines and get  
our Easy  
Payment  
Plan

In buying an electric washing machine, just as in everything else, it will pay you to look where the greatest variety is offered, because in that way you will be more certain to get exactly what you want.

We offer you a very wide choice. In our stocks on the floor we have several of the leading electric washers in America. Each of them is a perfect machine but some have features that will appeal to women of special requirements, meeting the demands as no other machine can do. For this reason it will be the part of wisdom to look here first.

We sell all our electric washers on terms to suit the purchaser. The convenience of the purchaser is considered all along the line and the service which follows our machines into the homes of the users is not to be surpassed.

In our new electric motor department we are ready to take care of your needs. We have motors, both new and used, for every purpose, in every size. It will be to your advantage to come to us with all your motor troubles. We employ a competent corps of specialists who KNOW.

## Big Value in Tires for Small Cars

Back of the manufacture of Goodyear Tires for small cars is the same purpose to supply high value in the product that is behind the manufacture of the Goodyear Tires that equip the most expensive automobiles built.

This purpose is expressed by the enormous resources, extraordinary skill and scrupulous care applied to the manufacture of Goodyear Tires in the largest tire factory in the world devoted solely to the 30x3-, 30x3½-, and 31x4-inch sizes.

The effect of this endeavor is noted in the fact that last year more cars using these sizes were factory-equipped with Goodyear Tires than with any other kind.

It is also noted in the fact that, if you own a Ford, Chevrolet, Dort, Maxwell or other car requiring the sizes mentioned, you can secure Goodyear Tires and Goodyear Heavy Tourist Tubes at the nearest Goodyear Service Station.

30x3½ Goodyear Double-Cure  
Fabric, All-Weather Tread..... \$20.00

30x3½ Goodyear Single-Cure  
Fabric, Anti-Skid Tread..... \$17.65

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size in water—\$3.90 proof bag.

**GOODYEAR**

We have a stock of Goodyear Tires in all sizes and types from 42x9 down to 30x3. See us.

# COURTHOUSE NEWS

## FIRST COUNTY MIXED JURY IS 'HUNG'

The first mixed jury in Orange county to hear the evidence at the trial of civil action failed to reach a verdict.

At 2:15 o'clock yesterday afternoon R. H. Kenney's action against the Pacific Electric Railway Company for \$75,000 damages went to the jury in the court of Superior Judge Williams.

At 5:35 in the afternoon the jury came in, reported that it was unable to agree, and was discharged by the court.

There were five women on the jury. Following the jury's discharge, it was stated that during the deliberations in the jury room two women and two men were in favor of rendering a verdict in favor of the railway company, while three women and five men were firm for finding for the plaintiff.

The balloting stood thus from the very first vote taken, according to the report that went the rounds of the courtroom after the juryman and women had departed.

A flurry was caused shortly after 3 o'clock in the afternoon when the jury came in. The belief that a verdict had possibly been rendered was quickly dispelled when the foreman requested the court to read over again certain portions of his instructions relative to the law regarding contributory negligence. It seemed evident that some of the jurors were not quite clear as to the legal rights of plaintiff and defendant with respect to this point.

**ASKS ESTATE LETTERS**  
With Roger C. Dutton of Anaheim, as his attorney, and through a petition on file today, Henry W. Griffin will seek letters of administration in the estate of Ellen G. Griffin, who died on February 8th, last, in Los Angeles, leaving \$9,892 on deposit in the Guaranty Trust and Savings Bank, Los Angeles.

## Man Occupies Ranch But Neglects His Payments, Is Charge

Alleging that several installments, declared to be due on the property, have not been made by H. M. King, Sylvia L. Garner and his wife, Della Anna Garber, through a suit on file today, will seek to be restored to the possession of thirteen acres of land, located two and a half miles west of Anaheim, on the Valencia road, and due north of Stanton. The complaint, which was prepared by Attorney Leonard Evans of Anaheim, recited that on January 15, 1919, a sales agreement was entered into, under which King came into possession of the land. It was alleged that on November 1, last, \$1400 became due as an installment, and that on January 15, last, another installment of \$259 became due. King was alleged to have refused to comply with demands that these sums be paid. It was set forth that the plaintiffs cannot make a peaceable re-entry upon the property except under an order of court.

## ORDERS ALLING PAY WIFE \$75 PER MONTH

His wife, Claudia Alling, winning her suit for separate maintenance, W. T. Alling today was under orders from Superior Judge West to pay her \$75 per month, following the completion of the trial of the action. Alling had been paying his wife \$50 per month, pursuant to a temporary court order. The trial was marked by no testimony of more than usual interest. Mrs. Alling charged her husband with mistreating her during the past four years, and of failing to provide for her common necessities of life. The testimony revolved about the life of the couple while they lived in the rear of the Cherry Blossom confectionery at Anaheim.

## WOMEN JURORS HEAR DEADLY WEAPON CASE

Women were in the jury box today in the court of Superior Judge West, where Panteleon Bermudez was on trial on a charge of assault, using a deadly weapon, with intent to kill. They were Mrs. A. J. Lawton of Santa Ana, Mrs. Flora M. Pyle of Westminster, and Mrs. Edna E. Jaynes of Buena Park.

The men on the jury were L. P. Hendrickson, A. F. Swift, C. E. Lovett, Edward Jones, Fred Guenther, Herman J. Cordes, August Block, T. R. Canady and C. S. Hubbard.

Mrs. Lawton and Mrs. Pyle were in the box and accepted as jurors when Attorney Antonio Orfila of Los Angeles, counsel for Bermudez, began exclaiming a number of men in an admitted effort to secure one other woman on the jury.

After P. E. Newman, L. H. Talbert, E. W. Camfield, George R. Smith, H. C. Davies, Ernest Beasley, J. H. Cochran and Alfred Leach had been excused by Orfila, Mrs. Jaynes took her place in the box and after a brief examination was passed for cause. Deputy District Attorney William F. Menton, who handled the prosecution, made no objections to any of the talesmen and women called.

"I desired another woman on the jury because I wanted a fair opportunity to learn how women would be in jury in this county," said Attorney Orfila, during a recess this morning and after the jury had been impaneled.

"I have tried numbers of cases in Los Angeles county, where women have served as jurors. I believe that men, especially those who have had previous jury experience, are inclined to have leanings and certain little prejudices, while, on the other hand, I think, women are more apt to weigh evidence carefully and impartially."

The case of Bermudez, which is the first criminal case in the history of Orange county where women have sat on a jury, revolves about the shooting of Blaza near the Anaheim sugar factory on the night of December 14.

Blaza was said to have stated that he went out of doors from the house where both he and Bermudez had been, when the latter followed him and shot him without warning.

It was expected today that the defense would endeavor to set up that Blaza tried to rob the defendant just prior to the shooting and while the two men were in the house.

Blaza was shot in the region of the heart. The bullet followed the course of one of his ribs from in front and lodged in Blaza's left shoulder.

Yuba Tractors for your orchard.

## PUBLIC AUCTION OF SCRIP IS MARCH 1

Surveyor General W. S. Kingsbury will hold a public auction sale of scrip in the senate chamber at the state capitol, Sacramento, on Monday, March 1, 1920, at 10 a. m.

State scrip is the cheapest land scrip on the market today. Said scrip can only be purchased by citizens of the United States who are residents of the State of California and who have not filed and perfected applications for school land with the surveyor general amounting to 640 acres.

No purchaser can buy more than 640 acres of scrip. Persons who have purchased school lands at auction only are qualified to buy scrip.

Scrip is sold in 40-acre lots for cash, personal checks received, and the surrender of the scrip is payment for an equal acreage of government land.

At the last auction sale of scrip the average price received per acre was \$9.82.

Homestead and desert land entries can relinquish their entries through the surveyor general and acquire title to the land through the purchase of scrip. The applicant need not live on or improve the land.

All money received from the sale of state scrip goes to the support of the public schools of the state.

## GRIZZLY CAN'T CLIMB TREE AS IS SUPPOSED

The hunter who comes home with a tale of how he took refuge from a grizzly in a tree, and how the bear climbed after him, is a Nature fakir, pure and simple, as Enos A. Mills reminds hunters in the story of the "Adventures of a Nature Guide." Yet this curious misapprehension of the climbing abilities of the greatest of the Ursidae persists in many quarters and is not always accounted for by mendacity. It seems to be a reasonable explanation that when a grizzly set out in pursuit of a more or less inexperienced sportsman, the latter is not always in the attitude of a calm investigator. Things are not precisely what they seem when the normal positions of hunter and hunted are reversed.

It is the task of more than one generation to put an end to nature faking. Colonel Roosevelt, if he were alive, would take delight in indorsing the work of Mr. Mills, who has recently become famous as a national park guide, who revealed the delightful possibilities of guiding in the wilderness as a profession for ambitious young men. The wilderness, says Mr. Mills, is really the safest place in the world for defenseless human beings. Not even the catamount, or puma, is dangerous. Colonel Roosevelt had already assured us on this point, but the statement will bear repetition.—Portland Oregonian.

**THREE ARRAIGNED**  
Francis Galvin, charged by C. H. McCausland, local automobile dealer, with obtaining an automobile under false pretenses; Lazaro Guerra and Juan Torres, both charged with child stealing, were arraigned before Justice John B. Cox and their preliminary examinations set for February 17, 19 and 13, respectively.

## ALL'S HARMONY IN AMERICAN LEAGUE

CHICAGO, Feb. 11.—Peace reigned in the American League today, following the annual meeting of club owners, which ended at 2 a. m.

A resolution ending the present difficulties and making it practically impossible for similar troubles to arise again was unanimously adopted.

The settlement appeared to be a compromise between the warring factions. All litigation instituted by the New York club against President Ban Johnson will be withdrawn; Ban Johnson will be reinstated as a member of the New York club in good standing; all games pitched by Mays last season for New York will be recognized, thus giving New York third place and third prize money in the 1919 race.

A statement issued after the meeting follows: "The difficulties hereto existing between the members of this association or any of its officers have been thoroughly settled once and for all. The meeting unanimously adopted and approved resolutions to carry out the following:

"First—The dismissal of all litigation instituted by the New York American League club.

"Second—The reinstatement of Carl Mays as a member of the New York club.

"Third—The recommendation to the national commission to award third place in the American League race to the New York club and third place prize money to New York.

"Fourth—The appointment of a committee of review or arbitration for two years, consisting of Colonel Jacob Ruppert and Clark Griffith to act as a reviewing board with final and binding power to review any penalties or fines in excess of \$100 or ten days' suspension, or any act that any member feels affects his constitutional rights as a member of the Association. In case the reviewing board are unable to agree, a federal judge in Chicago shall decide the question submitted."

The joint meeting of the majors and minors to attempt to work out a new agreement and a meeting of the National and American Leagues were to be held today. A new national chairman may be chosen at the meeting of the major league club owners.

## IMMANUEL BAPTISTS SEEK ORDER OF SALE

Pursuant to a petition filed through Attorneys Eden and Koepsel for J. H. Scott, chairman of the board of trustees of the Immanuel Baptist church, Superior Judge West has signed an order directing that a hearing on the petition to sell the church and parsonage, located at the corner of Sixth and French streets, be held on February 20 at 10 o'clock in Department 1, superior court. The board of directors has voted to dissolve the church. It hopes to realize \$8000 from the sale of the property. The proceeds will be devoted to the establishment of mission chapels in foreign lands.

A West Dallas widow, according to the Dallas News, says the reason she broke her last engagement was because her fiancé was so bowlegged he had to have trousers made with elbow joints.

## A Wonderful Showing of Luxurious Dress Fabrics

"What materials are they using most in the creation of the new apparel for present wear?" No doubt you have asked yourself this question the same as many others have, and if you have and want it answered to your utmost satisfaction then do not fail to pay this wonderful display an immediate visit. It will familiarize you on short notice with the fabrics in the weaves designs and shades which are the favorites of the moment and which are being most extensively used in fashioning of the new spring styles.

### Printed Foulards \$3.50.

## TROUBLES FROM MY AGE

Mrs. Baney tells how Lydia E. Pinkham's Vegetable Compound Helped Her Through the Change of Middle Life.

Rochester, Ind.—"My troubles were from my age and Lydia E. Pinkham's Vegetable Compound helped me wonderfully. I took doctor's medicine and other patent medicine but the Vegetable Compound has helped my nerves more than anything I have ever taken. I am thankful to the one who recommended it to me and will surely do my part in telling others what the medicine has done for me."—Mrs. LETTIE BANEY, 468 East 9th St., Rochester, Indiana.

Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and dizziness should be heeded by middle-aged women and let Lydia E. Pinkham's Vegetable Compound carry them safely through this crisis as it did Mrs. Baney.

### DISMISS NOTE SUIT

Dismissal has been entered in an action brought by W. P. Park against Herbert F. and Annie F. Clark, through Attorney L. F. Co-burn of Orange. It was an attachment case, and involved a promissory note given in Santa Ana, on July 20, 1918, for \$200, and another given at Orange on April 10, 1919, for \$104. It was alleged no part of the principal of the notes had been paid.

Young folks look at the grayheads and wonder if there ever could have been any romance in their hearts. Heaven bless you, young folks, there is yet, but what's the use?—Globe-Democrat.

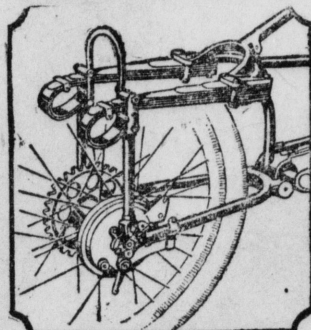

"Plenty of use, you poor simp," retorts the Roundabout of the San Diego Union. "The editor of this column is slowly developing a crop of gray hairs, but he considers himself perfectly well qualified to play the star part in any little old real life romance that may pop up."

## MOLASSES GOOD IN MIXTURES FOR FEEDING IN DAIRY

### Better Feeding of Cows Pro- duces Excellent Results in Milk

An increase in dairy production with a decrease in the cost of feed can be obtained by closer attention to feeding. There are a number of dairymen in the county who are feeding a sufficient amount of feed but the different feeds in their rations are not well balanced. Some are feeding too much roughage, such as hay, while others are feeding too much of one kind of a high priced concentrate.

It is now possible to obtain pure black strap cane molasses at a price that will enable the dairyman to feed it and get good results. It is a feed that is high in carbohydrates which means sugar and fat. It balances well with the cottonseed and coconut meal that is being fed and is much cheaper than barley, which sells for around \$90 per ton.

The molasses is preferable to barley at the present prices and in addition it is a fine tonic for the cows and also increases their palatability, which will induce them to eat up the dry concentrate feeds with a relish. From one to three pounds per day is a good feed in combination with the other concentrate feeds. A quart weighs three pounds, so it can be easily measured out.

It is best to mix it with the concentrates by first mixing the molasses with twice its amount of water and stirring well with a shovel in order to get the molasses evenly distributed. Some dairymen pour the molasses on the grain mixture when it is in the feed box and seem to get good results.

A few of the well balanced rations are given below but should not be taken as perfect rations for every dairyman because the conditions in a herd are different as to milk production, size of cows and cost of available home grown roughages, but they will give an idea of the proportions used in the concentrate mixtures. For a medium sized high testing cow it is advisable to give one pound of grain to three or four pounds of milk per day. For a thirty pound cow that would be from eight to ten pounds of the grain mixture a day.

No. 1—Rye and clover hay 20 lbs., beets or carrots 25 lbs., coconut meal 3 lbs., money maker 2 lbs., molasses 3 lbs., cottonseed meal 3 1/2 lbs.  
No. 2—Silage 30 lbs., beets 30 lbs., hay 10 lbs., coconut 3 lbs., molasses 2 lbs., cottonseed 1 lb.

No. 3—Rye and clover hay 25 lbs., beets 40 lbs., molasses 2 1/2 lbs., coconut 4 lbs.

No. 4—Carrots 40 lbs., hay 25 lbs., coconut 3 lbs., molasses 2 lbs., cottonseed 1 lb.

No. 5—Rye and clover hay 20 lbs., beets and carrots 50 lbs., coconut 5 lbs., bran 2 lbs., molasses 1 lb.

## Chemical Analysis Best Way to Determine Value Of Manures for Orchard

Average tests on \$25,000 worth of manures bought by a single ranch this year have given some very interesting data, which Dr. S. S. Twombly of Fullerton presented to the El Modena Center Monday evening. The best way to determine value of manures is through chemical analysis.

Laboratory analysis showed an average as follows: Forty-four per cent water, 880 pounds per ton; fifteen per cent organic matter, 30 pounds (including shavings and straw); forty per cent waste, 800 pounds actual dirt and lifeless material; sixteenth of one per cent nitrogen, 12 pounds per ton; phosphate, working it into the pile. This absorbs large quantities of the ammonium before it escapes.

E. B. Burns, deputy internal revenue collector, addressed the meeting on computing agricultural returns. His talk was one of the best and most instructive given the center on the subject. At the election of officers for 1920 W. P. Read was chosen for president and W. T. Chapman, director to the county organization.

A big local talent program for the next meeting on Monday, March 8, will attract a full house.

## NEMATODES MAY BE SPREAD IN STATE THROUGH POTATOES

After a trip of inspection through a number of the large potato distributing centers of the State, the State Director of Agriculture is advised by W. V. Shear, inspector, that it seems advisable to report the condition that exists in the potato markets visited. Many of the shipments of potatoes are found to be more or less infested with nematodes or eelworm. These potatoes are being shipped to almost every city and hamlet in the state, and from these centers are further distributed to the farmers in the vicinity of the local railway stations.

Inasmuch as nematodes are known to infest some five or six hundred different host plants and are causing serious loss in California and elsewhere, especially upon cantaloupes and vegetables, as well as upon fig and other fruit trees, the distribution of these parasites in a commercial way becomes a very serious matter for the agricultural interests of the state.

It is intended in the near future to call a meeting of the county commissioners located near these centers of distribution and others interested in the matter, in order to discuss measures for the control of this pest. The county commissioners are requested to report to the State Department of Agriculture such information as they may have regarding the distribution of this parasite and the injury caused by it in their respective counties.

## ANNUAL REPORT BY CROCHERON SHOWS WORK INCREASING

### Thirty-five Farm Advisors in State Great Aid to Growers

Subject: Agricultural Extension Work of University of California on Increase.

Agricultural extension work of the University of California in cooperation with the United States Department of Agriculture continues to increase throughout California, according to the report of the Director of Extension, B. H. Crocheron, for the last calendar year.

"There are thirty-five country farm advisors in the state, 17 assistant farm advisors and nine county home demonstration agents who were at work during the past year."

"The farm advisors were called upon by 13,774 farmers to visit their farms at which they made a total of 25,116 visits. These covered almost all manner of agricultural problems. In addition to this, 47,306 persons called at the farm advisors' offices to secure information. The county farm bureaus which were organized in conjunction with the agricultural extension work has a total membership of 207,770 persons. These held 5,479 meetings which were attended by 206,475 people. The demand for help and advice made upon the extension agents within the counties have grown so rapidly that the present force is unable to keep up with the demands made upon them by the farmers."

"One of the big activities carried on by the farm advisors is the location of demonstrations of desirable agricultural practices on the farms of persons who are willing to locate these. The farm advisors planned out 3,363 field demonstrations on farms covering various improved methods in relation to crops as well as livestock, insect pests and plant diseases. In order that the farmers might see the demonstrations when they were at maturity, they held 1171 field meetings which were attended by 47,372 persons."

"The marketing activities of the farm advisors in cooperation with the farm bureaus have gone quietly forward until they have assumed a large scope. The livestock auction sales, which system was first introduced by one of the farm advisors into California from Australia in 1917, have gradually spread over a large part of the interior valleys of the state."

"During the past year 183 of these auction sales were held at which 584 carloads of livestock were marketed directly to the buyers. These sold for a total value of \$1,790,330.79. It was estimated that these sales brought an increased money return to the farmers of \$166,946.97 over the prices which the buyers would have been able to obtain had the auction sales not been held. Seven counties of the San Joaquin Valley have leagueed together their auction sales departments into an organization known as the 'California Farm Bureau Marketing Association' which jointly conducts these sales in the seven counties which are not yet fully developed the system."

"The farm bureaus also conducted a large number of wool and cotton pools. During 1917-1918 state-wide campaigns were conducted to induce farmers to keep small flocks of sheep on a large number of the general farms of California and in certain counties other campaigns induced them to plant cotton as a small acreage crop for diversified farming."

"These wool growers and cotton growers having small lots of their product for sale and not hitherto been accustomed to marketing the product, found difficulty in so doing. The wool and cotton pools brought the products together, graded them into lots of like quantity, and shipped them of nearby or distant markets where the price was the highest. This resulted in an immediate and definite financial gain to the farmers. Both the livestock auction sales and the wool and cotton pools are an interesting example of the ability of farmers cooperatively to market their crops without any large capital or overhead organization."

"Three county farm bureaus have formed county farm bureau marketing departments which employ managers and assistant managers on full time and which do a considerable volume of business. The system is likely to spread into other counties of California during the coming year."

"The Extension Department of the College of Agriculture has during the past year stressed the improvement of livestock. The excellent showing made by the Agricultural College at the various big livestock shows throughout the country has demonstrated that California can grow as good livestock as any state in the Union."

"What is now needed is the gradual improvement of the quality of the stock over the whole state. The farm bureaus organized 19 cow-testing departments during the past year in which 2,298 dairymen have 25,263 cows under monthly tests made by a man who calls at the farm to weigh the milk and test the amount of butter fat therein. These associations resulted during

## CLUBS DO MUCH TO KEEP BOYS CONTENT ON THE FARM

### County Advisor Is Ready to Take Up Organization Work Here

The subject of keeping the boys and girls on the farm and deeply interested in its work and yields, has been written of at great length for quite a number of years, and each year has shown a need of handling the situation in such a manner that this hoped-for fact may come into being.

Probably the first and foremost thing which has been developed along this line in recent years is the formation of boys' and girls' clubs, where stock feeding, such as pigs, calves, sheep, etc., are the main projects for boys, and canning, poultry, dye, sewing and other clubs for the girls. These clubs are popular in many states and have created an immense interest.

Farm Advisor Wahlberg is deeply interested in this line of endeavor and hopes to see several clubs organized in Orange County.

The various state fairs, when these various clubs send their picked teams to do stock judging before thousands, and the girls show their ability as demonstrating teams following the various projects they have taken up.

Club work was first practiced on a large scale in Wisconsin in 1906 when the scheme to spread good seed corn among the farmers, and prizes were given for the best acre plots, and judging teams met in competition at the various county fairs, the winning team having opportunity to go to the state fair.

Corn Growing Club.

When the boll weevil became so numerous in the south, corn growing clubs were organized and these showed the older generation how to rotate to some extent, instead of growing but one crop each year, of cotton and also showed them how to grow corn to the best advantage.

In Wisconsin there are at present about 32,000 boys and girls working on various phases of club work, and at the state fair there were 34 demonstration teams from various districts showing what they could do along their lines.

California in 1917 had a membership of 2,014 boys and girls. The members are required to keep strict account of all charges against their project, such as material, labor, feed, hauling, etc., and must make such a report at the end of the year to their club leader. This develops a business-like attitude and training to the things of the farm and makes for more intelligent farm methods.

Recently a worried father asked me during the course of our conversation about boys' clubs and stated that he could not seem to interest his two sons in ranch life. He stated that they were privileged to use the auto much as was reasonable and that they seemed to want to be somewhere else all the time, and not at home when there was any work to be done.

Find Things to Do.

It finally developed that the boys never had been paid for any of the work they had done on the ranch and that nothing the real interest had been offered them to induce them to stay at home. Another thing was brought out and that was that each had been given a colt to break and train for their very own, but when the horse was broken and had been working a little while, the father sold it and kept the money. This has happened thousands of times all over the country, until the remark that "my calf is father's cow" had a big punch behind it.

So to create a new interest in the ranch it was suggested that the boys be given a certain interest in the ranch, and that their profits were to be deposited in the bank until they became of age, with the exception of one-fourth of it, which was for their own spending. If any particular want came up which required more than one-fourth, that amount could be drawn, provided the father's consent was given to the banker. The father could not check against these accounts at all. An agreement of such an effort was entered into with the bank in order to give full confidence to the boys.

Interested in Ranch.

Those two boys now are so interested in the ranch prospects that it is hard to realize they are the same restless, unsettled fellows of a comparatively short time ago. They are energetic, are keen to study new plans and methods of improving the work they do, and are real companions to their father.

If this proposition worked out there, then it would seem reasonable to suppose that if a club were started in a given community, the primary object of which was to see how could do the best of all along some certain project, that an inducement was given to farm's interests to that boy, which makes him a better farmer and business man, and sometimes it wakes up Dad and forces him to step lively in order to compete with the boy in results.

If anyone happens to be interested in this subject of boys' clubs, it would be pushing the movement if a line were dropped to the farm advisor at Santa Ana.

## Citrus Institute Is To Be Held at Orange Show

### Leading Men of Industry Will Discuss Phases of Citrus Culture

SAN BERNARDINO, Feb. 11.—Annual institute of California citrus fruit growers, to be held at San Bernardino, February 20 and 21, in connection with the National Orange Show, will be featured by talks by the leading experts of the state, it is announced by Dr. H. J. Webber, president of the institute and director of the University of California Citrus Experiment Station at Riverside.

"The institute this year," said Doctor Webber yesterday, "should be of even greater interest and benefit than last year, when hundreds of growers attended the daily sessions and heard exceptionally able and pertinent papers and addresses upon subjects which confront the citrus grower."

Following is the program:  
Forenoon Session, Feb. 20, 9:30 a. m.  
Topic—"Ranch Organization and Extension."

Address of Welcome—President R. E. Swine, National Orange Show.  
Co-operative Grove Organizations—T. R. Woodbridge, Upland.  
Routing of Ranch Labor—J. D. Culbertson, assistant manager Limonira Ranch, Santa Paula.

Trend of Development of the Citrus Industry—Prof. R. S. Valle, Citrus Experiment Station, Riverside.  
Are We Using the University and the Experiment Station as we Should?—W. H. Fleet, manager Rancho Sespe, Sespe.

Afternoon Session, Feb. 20, 2 p. m.  
Topic—"The Making of a Citrus Orchard."

The Selection of Stocks—H. J. Webber, director, California Agricultural Experiment Station, Berkeley.  
Bud Selection and Nursery Methods—C. S. Milliken, California "Lift Growers' Exchange, Los Angeles.  
Planting Citrus Trees—F. H. Nussbickel, Glendora.

Handling a Young Orchard—W. M. Mortz, manager, Pothill Frostless Fruit company, Alta Loma.  
Discussion.

Forenoon Session, Feb. 21, 9 a. m.  
Topic—"Orchard Management."

The Fertilizer Situation—A. E. Barnes, Fruit Growers' Supply Company, Los Angeles.  
The Conservation and Application of Manure—Prof. A. D. Shamel, U. S. Department of Agriculture, Riverside.

What We May to Increase the Future Supply of Organic Matter—Joy G. Jameson, Corona.  
Use of Cover Crops in Citrus Orchards—Dr. J. G. McBeth, manager Leffingwell Ranch, Whittier.

Afternoon Session, Feb. 21, 2 p. m.  
Topic—"Insect and Fungus Diseases of Citrus."

Important Fungus Diseases of Citrus—Dr. J. T. Barrett, acting director, Citrus Experiment Station, Riverside.  
The Use of Parasites in the Control of Mealy Bug—Prof. H. S. Smith, State Department of Agriculture, Sacramento.

Fumigation Methods in the Control of Citrus Insects—Prof. H. J. Quayle, Citrus Experiment Station, Riverside.  
Observations on Electric Wind Injury—Dr. H. S. Reed, Citrus Experiment Station, Riverside.  
The following committee arranged the program:  
Dr. H. J. Webber of Riverside and Berkeley, W. G. Frazer of Riverside, J. T. Barrett, acting director of the Riverside Experiment Station; J. H. Strait and D. C. Lefferts, Redlands growers and packers; C. N. Burton, Pomona; W. H. Fleet, Sespe; S. W. McCullough, Fullerton; R. O. Price, Upland and H. R. Yerxa of Highland.

Yuba Tractors mean success.

## BOY SHOULD BE TAUGHT VALUE OF TILLAGE OF SOIL

### Nature Study Urged by Dr. Dowling as Factor In Youth's Training

"The boy should be taught to respect labor and more particularly the tillage of the soil," declared Dr. F. M. Dowling of Placentia in an address to the Fullerton Farm Center.

"Every effort on the part of the parent and the community should be directed toward bringing to the boy an understanding of the dignity of agricultural pursuits, for agriculture is the foundation of the nation's prosperity. A deep appreciation of nature is desirable, and through nature study the boy will become fond of animal and plant life. Proper training will be a great factor in bringing the consuming class to an understanding of the field of production."

At the Fullerton meeting Dr. S. S. Twombly, of Fullerton, gave a review of a number of leading questions arising on the subject of "Fertilizers." He said that a chemical analysis of a soil does not indicate the fertility or producing power of that soil. It does not show the availability of the elements for plant food.

Organic matter is a limiting factor for the bacterial life in the soil. The breaking down of soil compounds is dependent on bacterial action. It is necessary to encourage and build up the humus content.

The Fullerton Center secretary reported a membership of 115 for 1920 for the center. He also told of the spread of the Farm Bureau movement in the middle west. In Iowa, for instance, there are 120,000 members, five times the total in California, and their dues are not \$2, but \$5. These several middle west State Farm Bureaus are taking up politics and are banded together to meet the economic issues in a practical and business like way.

Abbe Pritchard sized the local farmer up as too self-satisfied. "As long as they are getting good returns for their product, they are 'worrying little about the future,'" said he.

The center elected members Hartrampf, Twombly, Hall, Coulter and Marshall as delegates to the meeting for the organization of a Northern Orange County Association.

A committee consisting of Members Coman, Marsden and Kerswing was appointed to confer with Supervisor Wm. Schumacher concerning the upkeep of roads.

## MUCH MAIL IS LOST WITH TWO STEAMSHIPS

In the loss of the steamship Kerwood, which sailed from New York to Hamburg Nov. 13, 1919, and struck a mine in the North Sea, there were lost 1,175 sacks of parcels post mail for Germany, 291 sacks for Austria and 647 sacks for Czechoslovakia. The above mail accumulated at New York between the 8th and 12th of November, 1919.

In the loss of the steamship Liberty Glo, which sailed from New York to Hamburg Nov. 22, 1919, and struck a mine off the coast of Holland, there were lost 560 sacks of parcels post mail for Germany, 331 sacks for Czechoslovakia and 67 for Austria. The above mails accumulated in New York between 11 a. m. Nov. 19 and 9 a. m. Nov. 20, 1919.

## CASE TRACTORS, CARS, WIN INSTANT FAVOR

"The All Feature Car," the Case automobile has, like its brother, the Case Tractor, won instant favor with the ranchers of Orange County," says H. C. Seymour, distributor, 311 East Center street, Anaheim. "Within ten days of our first shipment of Case automobiles we have sold two carloads and are pleased to say that we can make immediate deliveries for the present."

My experience of the past 10 years with ranchers, has taught me that they are discriminate buyers and are quick to appreciate and buy 'Quality Machinery.' The Case automobile and tractor are surely a 'Sign of the Times' for the rancher. For 77 years Case has made nothing but machinery for the farmer, and our slogan 'The Sign of Mechanical Excellence the World Over,' is pre-eminent in our products.

"Case Tractors were delivered last week to W. L. Halo, Fullerton; Ed Beazley, Placentia; Jas. T. Raitt, Santa Ana and a Case automobile to Geo. Betzold, John Cassou and Chas. Lange, all of Anaheim.

Yuba Tractors are efficient.

# IN FEEDING OF RABBIT FIND THE COST

The following article on the necessity of proper feeding for rabbits was written by an expert, Paul Black.

"What shall I feed my rabbits? The answer to this question resolves itself into two considerations—the best feed and the cheapest meat it will produce—and the most meat with the least feed and time to produce it. I am discussing the meat rabbit, for it is the true basis of the rabbit industry. Even though most breeders have lost sight of this fact, due to the great demand for breeding stock, the future will surely compel us all to come to the commercial phase of the industry if we are to keep it. All the rabbit shows in the country cannot keep up the popularity of the rabbit as a hobby when the demand for food and stock has been supplied and breeders cannot get such high prices for their stock, it is then that rabbit raising for meat and fur will put the industry on a solid and permanent foundation.

**Low Production Cost.**

"After raising several kinds of rabbits, I soon learned that my greatest profit did not come from the number of pounds of rabbits but from the low cost of these pounds in quick maturity. With the ever increasing cost of mill feeds I began to study the best feed to produce quick growth, and of course, I found it paid greater returns to feed the best. This is what it cost per pound to raise a New Zealand at three months of age that would dress around three pounds, with oats at 3 cents per pound, alfalfa at 2 1/2 cents per pound, bran at 2 1/2 cents and barley at 3 cents. To determine the market value alone, the original cost of parent stock, cost of coops and labor was left out of consideration. Each doe raised a litter of six. On a feed twice a day of oats, barley, bran and hay, each doe and litter cost 45 cents the first month, 60 cents the second month, and \$1.96 the third month. At three months of age they averaged five pounds live, and dressed an average of three pounds apiece at a cost of 16 2/3 cents per pound.

**Could Cut Cost.**

"I believe this cost could be cut down because there was considerable wasted food. These youngsters lost close to 40 per cent in dressing. I sold the mat 35 cents per pound, which netted 55 cents apiece profit or 100 per cent. After that I found that dressed rabbits were bringing 50 cents on our market at that time. "Even with the prevalent ignorance of most people of the wondrous nutritive value of rabbit meat the year round, it is not a question of finding a market, we have that now—but we cannot keep it alive and active until we have a regular supply. The first question a butcher or hotel man will ask is 'How many can you guarantee me a week?' "A few words more about feed. The day is passed when anybody is going to be allured into the rabbit business by the old gag that you can beat the world raising your own Sunday dinners on lawn clippings and kitchen waste. Maybe your rabbits will survive on such stuff, but how long will it take them to get fit or big enough to eat? Surely long enough for you to conclude there is nothing in this rabbit craze! You must feed those feeds conducive to quick growth, and you will get the greatest amount of delicious meat in the shortest time—you can have frys the year round—something that cannot be done with any other animal or fowl as easily and cheaply."

**'UNREASONABLE' RENTS BLAMED BY COMMITTEE**

LOS ANGELES, Feb. 11.—Pointing to the Railroad Administration announcement of a 40 per cent fall in the cost of passenger tickets within two weeks, and to a decrease of 40 to 50 per cent in daily calls for housing accommodations, the housing department of the Chamber of Commerce last evening issued a statement in which "unreasonable" rentals are blamed.

According to the statement, prices charged by Los Angeles landlords, especially the owners of small houses, "have apparently been the subject of some very undesirable advertising in the East." In view of the existing conditions, according to the statement, it would seem not justifiable to keep the department open in the evenings.

**ANNUAL REPORT BY CROCHERON GIVEN**

(Continued from page nine)

the year past in discarding 1,048 cows which were found to be unprofitable.

"The farm advisors assisted 165 farmers to buy registered bulls and helped to secure 546 registered cows. The boys' agricultural clubs throughout the state carried on a campaign for better hogs on the farms by placing 1,151 registered pigs with boys who raised them in competition among the clubs located in the elementary and high schools. The State Farm Bureau, which was recently organized, is now planning a state-wide campaign for pure bred sires which will take place during the coming year."

**CITY MAIL CARRIER WALKS 50,000 MILES**

VISALIA, Feb. 11.—A. W. Smith, dean of the Visalia mail carriers, has secured a leave of absence after having established the Visalia long-distance walking record. Mr. Smith has kept careful track of the territory he has to cover and has estimated that during the delivery of mail to the patrons of the postoffice on his route, he has covered an aggregate distance of 50,000 miles.

**DON'T FUSS WITH MUSTARD PLASTERS!**

Musterole Works Without the Blister—Easier, Quicker

There's no sense in mixing a mess of mustard, flour and water when you can easily relieve pain, soreness or stiffness with a little clean, white Musterole. Musterole is made of pure oil of mustard and other helpful ingredients, combined in the form of the present white ointment. It takes the place of mustard plasters, and will not blister. Musterole usually gives prompt relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frostbitten feet, colds of the chest (it often prevents pneumonia). 30c and 60c jars; hospital size \$2.50.

**HER FRIEND WAS GIVEN A BIG SURPRISE**

Mrs. Page Improved So Rapidly on Tanlac Caller Was Astonished.

"Giving a statement to be published is a new experience for me," said Mrs. Joseph F. Page, residing at 115 Trolley Way, Venice, California, in an interview recently, "but Tanlac has done so much for me that I want to tell everybody about it.

"At the time I began taking Tanlac," she continued, "I was one of the sickest persons you ever saw to be on my feet at all. A few months ago I was taken with an attack of acute indigestion that almost cost me my life and words can't describe the suffering I have gone through since that time. I sometimes wonder that I am here to tell about it, and I doubt if I would be if I had not taken Tanlac. This attack came on me suddenly one night with a pain through my stomach and back that couldn't have hurt worse if I had been pierced with a knife. My stomach was left in such a bad condition that I could not take any nourishment at all with-out just suffering agony. They made an X-ray picture of my stomach and put me on the strictest diet, but I got no better. Then I was sent to a hospital for treatment and at the end of two weeks I was still no better. So they brought me home one of the worst discouraged and downhearted persons you ever saw. I had lost twenty-eight pounds in nine weeks and was so weak and nervous I could hardly get one foot before the other, much less do any of my work. I was living principally on hot milk and just felt that I could go no further without some relief.

"They wanted to operate on me and, if my husband had not insisted that I try Tanlac first, the operation would have been my next resort, for it seemed that everything else that could be had been done for me. My husband read a testimonial to me that described my case almost exactly, so he brought me a bottle of Tanlac. Well, after I had been taking this medicine for about ten days a friend, who had not seen me in several days, came in and said, 'Why, I never saw such an improvement in a person in so short a time,' and wanted to know what I had taken to make me look so much stronger and better. Then I was encouraged to keep on with Tanlac, and I could feel myself getting better every day. I soon started to eat and did not have the slightest pain or discomfort afterwards. I am on my sixth bottle now and am not only feeling perfectly well, but I have already gained ten pounds in weight. I can do my housework and care for the children with as much ease as I ever could, for I am feeling just fine in every way. So I have the best of reasons for praising Tanlac and my only regret is that I did not take it sooner."

Tanlac is sold in Santa Ana by Rowley Drug Co., in Fullerton by G. W. Finch, in La Habra by R. H. Hilbert, in Huntington Beach by Rigdon's Pharmacy, in Orange by Dittmer's Mission Pharmacy, in Placentia by A. J. Robinson, in Tustin by Tustin Drug Co., in Brea by Brea Pharmacy, in Buena Park by Regal Drug Co., in Garden Grove by O. H. Anderson, in Laguna Beach by Laguna Beach Pharmacy and in Seal Beach by Wm. S. Templeton.

**QUICK RELIEF FROM CONSTIPATION**

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, a substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No gripping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—bad breath—a dull, tired feeling—sick headache—torpid liver—constipation, you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedtime.

Thousands take them every night just to keep right. Try them. 10c and 25c.

**STORM-WATER PLAN REVIVED SINCE WAR**

BANNING, Feb. 11.—The Merrill-Baker project for storing the storm waters in Mission Creek, the Pecos, Morongo Creek, Whitewater River and Baldwin Lake, which was temporarily halted by the war, is again under way. A gang of men is at work completing the surveys, and it is announced that at least \$1,000,000 will be spent in completing the project. One of the features of the project is the delivery of water to the cities of Imperial Valley. In addition, enough water, it is expected, will be stored from the spring overflow to establish a power plant on Snow Creek, and a road is now being graded up the creek. Other crews are now operating out of this city and building roads up the Whitewater Canyon.

**SOON HAVE SIGNS FOR COT ORCHARDS**

Apricot orchards in Orange county, whose owners belong to the California Prune and Apricot Growers, Inc., may soon have signs showing that their orchards belong to the association, for the following appears in the Sunsweet Standard, published by the association:

"The most attractively designed colored orchard signs for the posting of member acreage throughout the state have at last arrived, and a large supply has been forwarded to many points in the state for distribution to the growers. The association in giving out these signs requires the grower to sign a certain form of receipt amounting to an agreement under which the association retains the ownership of the sign. This plan has been adopted in order that on failure of any new purchaser to sign with the association, our representatives will be in a position to remove the poster. These signs when distributed, some ten thousand of them, throughout the orchard districts of the state, must certainly have a great advertising value.

"Growers desiring to secure their signs should get information as to distributing points from our local field department representatives who are attending this matter."

**GOING TO COST LESS TO FIND SCHOOL JOB**

The registration bureau of the California Teachers' Association is going to make a big cut in the H.C.L. fee so far as obtaining a teaching position is concerned. Where, formerly teachers' employment bureaus and agencies charged five per cent of a teacher's yearly salary, the registration bureau connected with the State Teachers' Association is planning to cover practically the same line of work at minimum charges.

Whereas, under the old system of agencies a teacher who secured a position through the agency at \$1000 a year would pay \$50 of the salary to the employment medium will not pay higher than \$5 for the same service under the state plan. The \$5 fee is paid by all high school teachers and no commission charged. In the case of primary and grammar teachers the fee is \$3.

Announcement of the new plan which is managed by C. M. Rogers, of the registration bureau, Berkeley, is made in a special letter to be sent to all teachers in the state and to all school officials. This plan will do away with the heavy expenses incurred by the prospective teacher in the past and was the idea of the California Teachers' Co-Operative Club later turned over to the California Teachers' Association, and now under the administration of the state registration bureau.

According to the announcement, two offices eventually will be maintained for the bureau; one is now in operation at Berkeley, the other will be established in Los Angeles early in the summer. All teachers and principals and even school board officials are asked to report existing or future vacancies, also when the same positions have been filled.

**"DANDERINE" STOPS HAIR FALLING OUT**

Hurry! A few cents will save your hair and double its beauty

A little "Danderine" cools, cleanses and makes the feverish, itchy scalp soft and pliable; then this stimulating tonic penetrates to the famished hair roots, revitalizing and invigorating every hair in the head, thus stopping the hair falling out, getting thin, scraggly or fading.

After a few applications of "Danderine" you seldom find a fallen hair or a particle of dandruff, besides every hair shows more life, vigor, brightness, color and thickness.

A few cents buys a bottle of delightful "Danderine" at any drug or toilet counter.—Adv.

**ALLISON IS RELEASED**

PORTERVILLE, Feb. 10.—C. C. Allison, a local music dealer, who was taken into custody in Tulare after he had paid bills with checks which were returned from his bank endorsed "not sufficient funds," was released from jail after Mrs. Allison had deposited money to make good the overdraft. It was explained by Mr. Allison that the error was caused by the fact that they used a common check book.

# SOON HAVE SIGNS FOR COT ORCHARDS

Apricot orchards in Orange county, whose owners belong to the California Prune and Apricot Growers, Inc., may soon have signs showing that their orchards belong to the association, for the following appears in the Sunsweet Standard, published by the association:

"The most attractively designed colored orchard signs for the posting of member acreage throughout the state have at last arrived, and a large supply has been forwarded to many points in the state for distribution to the growers. The association in giving out these signs requires the grower to sign a certain form of receipt amounting to an agreement under which the association retains the ownership of the sign. This plan has been adopted in order that on failure of any new purchaser to sign with the association, our representatives will be in a position to remove the poster. These signs when distributed, some ten thousand of them, throughout the orchard districts of the state, must certainly have a great advertising value.

"Growers desiring to secure their signs should get information as to distributing points from our local field department representatives who are attending this matter."

## CHILD'S HAIR ALL CAME OUT

With Milk Crust. Could Not Sleep. Cuticura Heals.

"When baby was six months old he developed a very bad case of milk crust. He could not sleep night or day. The milk crust was very disfiguring and his head and cheeks were covered with a scale. His scalp was sore and red, especially when he scratched it, and his hair all came out. The trouble lasted about two months when I heard of Cuticura Soap and Ointment, and I used two cakes of Cuticura Soap and one box of Ointment when he was healed." (Signed) Mrs. C. Bennett, R. D. 1, Box 33, Downey, Idaho, April 16, 1919.

Cuticura Soap, Ointment and Talcum are all you need for all toilet and nursery purposes.

Sample Each Free by Mail. Address: "Cuticura," Manufacturers, Dept. 8, Malden, Mass. Sold everywhere. Soap 25c, Ointment 25c and 50c, Talcum 5c. Cuticura Soap shaves without lather.

## FIGHT AGAINST GOPHER BEING CARRIED ON

Several counties of the state are making special fights against gophers. Reports of what is being done in Riverside, Los Angeles and Sacramento counties follow:

**RIVERSIDE**—During the month of January, County Horticultural Commissioner D. D. Sharp, in co-operation with Farm Advisor Wilson and E. E. Garlough, of the Biological Survey, held a series of meetings and gopher demonstrations in Riverside county. All of the centers in the county were visited, field demonstrations were conducted during the day and an illustrated lecture on rodent control was given in the vicinity in the evening.

**LOS ANGELES**—In Los Angeles county, Mr. Neville, in charge of rodent control, has been favored with the co-operation of F. E. Garlough for the past week along similar lines. Gopher control methods are being placed in a very pleasing and effective manner before all of those interested.

**SACRAMENTO**—The rodent control officer has been doing a considerable amount of gopher control work since November and will continue this program as long as the breeding season of the pocket gopher persists, inasmuch as this is the most satisfactory time to further effective control measures. Commissioners desiring formulas for eradicating pocket gophers can readily be supplied and any information along this line will be gladly forwarded.

## TWO MORE ELECTIONS SOON AT LONG BEACH

**LONG BEACH**, Feb. 11.—Two more elections are in prospect for this city within the next sixty days.

One is for the annexation of a populous district north and east of the present city limits. The other is on a proposal for a bond issue for the erection of a new pier, harbor improvements and installation of a storm sewer system.

No exact date has been set for the annexation election.

The territory desired to be taken into the city lies north of the present city limits to Wardlow road and east to the Orange county line. This district contains more than 5000 persons, it is estimated. It has been the most rapidly-growing section, with the exception of the east end, during the present unprecedented building activity.

Police protection, street-lighting and sewer-connection conveniences will be offered to the voters in the district desired to be annexed, in exchange for the levying of practically double their present taxes.

The municipal improvement proposal, to be voted on some time in March, will call, if successful, for the issuance of bonds of \$2,750,000.

A new municipal pier will be the biggest item, to cost \$1,500,000. The storm sewer, it is estimated, would cost \$450,000, and the harbor improvements \$800,000.

## TO AN APRIL EGG

(These, laid in 1911, should be as fresh as if they were laid yesterday.)

Eggs, ere I crack you I would muse

upon

The flight of time, a topic some-

what frayed.

Ah me, some seven moons have

come and gone

Since you were laid.

Much water, Egg, has washed the

millers' wheel

Since that far morn when first

you saw the light.

And now you bless my matutinal

meal!

You bless—or blight.

For though I have my grocer's guar-

antee

That you are fresh, as fresh as

may be had.

I'll lay my eight to five, or eight to

three.

That you are bad.

Hence, Egg, I hesitate ere I apply

The knife. Art sweet, or rotten to

the core?

The question gives me pause. Ah!

me! as I

Remarked before.

Enough of musing. Let us look in-

side.

Ah, yes. An egg of prehistoric

breed.

Some long-lost April. Jane, the win-

dow—wide!

Ah, me, indeed!

—B. L. T., in Chicago Tribune.

## FOUR INVOLVED IN KILLING OF ENRIGHT

**CHICAGO**, Feb. 11.—Tony Cifa Ido, held in connection with the murder of "Boss" Enright, labor gunman, made a complete statement, involving four persons in a conspiracy to kill Enright, State's Attorney Mac-lay Hoyne announced today.

"Dago Mike" Carrozzo, president of the Street Cleaners' Union, and "Big Tim" Murphy, president of the Cashmere Workers' Union, were re-arrested and were to be booked today, charged with connection with the murder.

Raids on the home of Carrozzo by detectives from the state's attorney's office resulted in the seizure of a sawed-off shotgun and ammunition.

## APRICOT PRICES FOR LAST CROP ARE GIVEN

The prices received by the California Prune and Apricot Growers, Inc., the association organization, for apricots for the 1919 crop, are announced by the association as follows:

"The management's announcement of final payment of season's apricot deliveries, aside from certain returns, amounts to the most interesting news item of this month's issue. The accounting department has just been authorized in accordance with final statement of season's sale, to complete payment on growers' 1919 apricot deliveries making up a net return equal to our opening prices on all deliveries as follows:

"Sunsweet Quality — Standard, 19c; choice, 25c; extra choice, 26c; fancy, 27c; extra fancy, 29c; fancy Moorpark, 29c; extra fancy Moorpark, 32c.

"Growers' Brand 1/2c under Sunsweet—No. 1 slabs, 21c; No. 2 slabs, 20c; No. 1 culls, 11 1/2c; No. 2 culls, 11c; No. 1 whole, 11 1/2c; No. 2 whole, 9c; No. 3 whole, 8c.

"The association management feels particularly pleased with its ability to make these returns to the growers, for we have had during the season past rather an indifferent market. From the marvelous peak early in the season the failure of export occasioned and slump.

"As a result of association merchandising efforts and methods, this condition was fortunately much improved for the sale of the clean-up. At many periods of the season we anticipated possible fractional failure in the netting of opening price to members, owing to not only market but expensive manufacturing conditions. The above statement of returns means that processing gains and packing charges along with small sale at improved prices have combined to offset expenses such as brokerage, trade discount, manufacturing costs, association 5%, etc. At the end of the fiscal year, when the books of the association have been subject to proper audit, financial statement of corporation and fruit accounts will be regularly published."

## BUILDING TRACTORS FOR TRAILER USES

A recent canvass of the leading truck manufacturers in the United States has disclosed the fact that a large majority now not only recommend the use of semi-trailers in connection with their standard truck equipment, but are also manufacturing special tractors to be used in conjunction with the semi-trailer.

It has been found that more than one-half of the largest truck manufacturers are either building a short wheel base truck, or a special tractor for use in this manner.

These tractors and trucks are designed especially for draft work, having very short wheel base, extra strong frames, heavier axles, wheels and springs, larger tires, lower gear ratios and special built-in attachment devices for the trailers or semi-trailers.

The local distributors of Utility Trailers, who have been giving this matter very careful study, states: "I have found that on ordinary roads with moderate grades, almost any good truck has sufficient excess or reserve power to haul, in addition to its own capacity load, a trailer with an equal load, or by the substitution of a semi-trailer with a fifth wheel for the truck body, to haul a load of double or triple its rated capacity."

"As it is to the best interest of both truck and trailer manufacturers to deal honestly with the customer and sell him such equipment as will give him the most satisfactory service, their transportation engineers will recommend the use of tractors and trailers only when his analysis of the requirements and operating conditions show that they will be most efficient and economical."

The use of trailers enables the truck owner to greatly increase the capacity of his truck at a very slight additional expense and in many cases makes truck operation economical where otherwise they could not be used to advantage or compete successfully with haulage by team."

"BUBBLES" IS DEATH SONG  
**DENVER**, Feb. 11.—Julian B. Slaughter, advertising manager of the Neustetter Company, died in his apartment here. He was a bachelor. Slaughter's last request to his nurse was that she should place the record of his favorite selection on the phonograph. She yielded to his request and he passed away to the tune of "Bubbles."

**BAD BREATH**

DO YOU WANT your friends to avoid you? They will certainly do so when your breath is bad.

There is no excuse for anyone having a bad breath. It is caused by disorders of the stomach which can be corrected by taking Chamberlain's Tablets. Many have been permanently cured of stomach troubles by the use of these tablets after years of suffering. Price 25 cents per bottle.

**Chamberlain's Tablets**

NEW YORK, Feb. 11.—That the political campaigns of 1920 will see a larger array of American women taking part in national affairs than ever before is proved by the number of women already active in the councils of the two major parties as well as the now victorious suffrage association.

In a list of women party leaders who will attend the celebration and convention of the National American Woman Suffrage Association in Chicago next month, Illinois and Kentucky take first rank, with New York and Missouri pressing them hard for leadership.

The Kentucky Equal Rights Association has done double duty in furnishing women to both the national political parties. Mrs. John G. South of Frankfort, who for three years was president of the association, is chairman of the National Republican Women's Committee.

Mrs. Samuel T. Castleman of Louisville, vice president of the association, is the Kentucky member of the women's committee, National Democratic Committee.

Illinois has only furnished the present two state chairmen for the two major parties, but has to its credit two others in the national committees. Mrs. George Bass of Chicago of the women's committee, National Democratic Committee, and Mrs. Medill McCormick, wife of the Illinois senator, retiring chairman of the National Republican Women's Committee, are both leaders in the Illinois Equal Rights Suffrage Association.

Mrs. Fletcher Dobyns of Chicago and Mrs. Howard T. Wilson of Virden are the state chairmen of the women's committee of the Republican and Democratic committees respectively.

Although Illinois and Kentucky hold the first place in women's party leadership owing to the fact that they have furnished the only national chairmen, New York and Missouri are hard by with candidates for honors.

The New York City League of Women Voters has furnished Miss Mary Garrett Hay, chairman of the executive committee of the women's division of the National Republican Committee, while the state league has given Mrs. Arthur J. Brown as its state chairman, of the Republican Women's Committee. Both these women are prominent in the affairs of the national women's suffrage movement.

Another suffragist, Mrs. David O'Neil of St. Louis and Mrs. Alfred J. Liggeman of St. Louis are Missouri's members of the Democratic and Republican national committees, respectively. Miss Alma B. Sasse of Brunswick, state chairman of the Missouri Republican Women's Committee, has the distinction of being the youngest state chairman in the United States.

Other women who have loomed up as party leaders in their states are: Mrs. Harriet Taylor Upton, president of the Ohio Women's Suffrage Association, is a member of the National Republican Committee's advisory committee.

Mrs. Percy V. Pennybacker of Birmingham is state chairman of the Alabama Democratic Committee. Mrs. John K. Ottley of Atlanta is state chairman of the Georgia Democratic Committee. Mrs. W. C. Cathcart is state chairman of the South Carolina Women's Democratic Committee.

Miss Mary Foy of Los Angeles is one of the Democratic women leaders of the country. She is an attorney and is state chairman of the women's committee. She was a presidential elector at the Democratic national convention in St. Louis in 1916.

Other women leaders are: Miss Mary Owen Graham, Democrat, North Carolina; Miss Carolina Runtz-Rees of Greenwich, Conn.; Mrs. W. R. Pattangall of Maine; Mrs. Susan Fitzgerald, Democrat, and Mrs. Charles Sumner Bird, Republican, Massachusetts; Mrs. Henry M. Youmans, Republican, Waukesha, Wis.; Mrs. E. R. Bowler, Democrat, of Sheboygan, Wis.; Mrs. Alexander Thompson, Portland, Democratic member of the Oregon house of representatives, and Mrs. Frank Dodson, Republican, Iowa.

Call "The Owl Auto Service." Special trips anywhere anytime. 304 Bush St. Phone 1486. Five, seven and twenty-passenger cars. You are protected with \$10,000.00 accident insurance on each car.

## WOMEN TO TAKE BIG PART IN CAMPAIGN

NEW YORK, Feb. 11.—That the political campaigns of 1920 will see a larger array of American women taking part in national affairs than ever before is proved by the number of women already active in the councils of the two major parties as well as the now victorious suffrage association.

In a list of women party leaders who will attend the celebration and convention of the National American Woman Suffrage Association in Chicago next month, Illinois and Kentucky take first rank, with New York and Missouri pressing them hard for leadership.

The Kentucky Equal Rights Association has done double duty in furnishing women to both the national political parties. Mrs. John G. South of Frankfort, who for three years was president of the association, is chairman of the National Republican Women's Committee.

Mrs. Samuel T. Castleman of Louisville, vice president of the association, is the Kentucky member of the women's committee, National Democratic Committee.

Illinois has only furnished the present two state chairmen for the two major parties, but has to its credit two others in the national committees. Mrs. George Bass of Chicago of the women's committee, National Democratic Committee, and Mrs. Medill McCormick, wife of the Illinois senator, retiring chairman of the National Republican Women's Committee, are both leaders in the Illinois Equal Rights Suffrage Association.

Mrs. Fletcher Dobyns of Chicago and Mrs. Howard T. Wilson of Virden are the state chairmen of the women's committee of the Republican and Democratic committees respectively.

Although Illinois and Kentucky hold the first place in women's party leadership owing to the fact that they have furnished the only national chairmen, New York and Missouri are hard by with candidates for honors.

The New York City League of Women Voters has furnished Miss Mary Garrett Hay, chairman of the executive committee of the women's division of the National Republican Committee, while the state league has given Mrs. Arthur J. Brown as its state chairman, of the Republican Women's Committee. Both these women are prominent in the affairs of the national women's suffrage movement.

Another suffragist, Mrs. David O'Neil of St. Louis and Mrs. Alfred J. Liggeman of St. Louis are Missouri's members of the Democratic and Republican national committees, respectively. Miss Alma B. Sasse of Brunswick, state chairman of the Missouri Republican Women's Committee, has the distinction of being the youngest state chairman in the United States.

Other women who have loomed up as party leaders in their states are: Mrs. Harriet Taylor Upton, president of the Ohio Women's Suffrage Association, is a member of the National Republican Committee's advisory committee.

John S. Johnston, Asst. Secretary and Asst. Treasurer.

MONTANA FARMING CORPORATION  
One Hundred Forty Broadway  
NEW YORK

Hardin, Montana, October 14, 1919

Mr. E. J. Gittins, Vice-President,  
J. I. Case Threshing Machine Co.  
Racine, Wisconsin.

Dear Mr. Gittins: I have just returned from Fort Peck and cannot refrain from writing you in regard to the new 22-40's, as I am more enthusiastic over them than ever. They truly are remarkable engines and I consider them the finest gas tractor of their size made by any manufacturer in the United States. Our four have run constantly all year without any maintenance or repair expense and it certainly was a joy to see them traveling along a good three miles an hour pulling three 10-foot harvesters in a heavy field of flax. They are just the right size for use for seeding, harvesting and cleaning up lands and I am sure must be the most economical size for the average farmer to use, as they seem able to pull four 14-inch plows in any kind of soil. We expect to buy more of them next year.

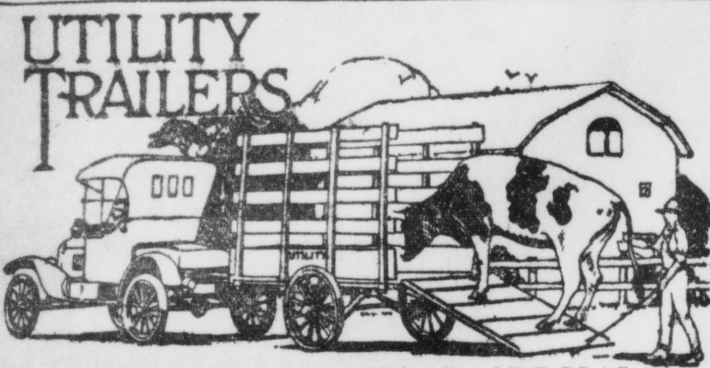

With best wishes and good will for the company and a great deal of respect for your designing engineer, I am,

Very cordially yours,

THOMAS D. CAMPBELL, President.

## Wintersburg-Smeltzer

WINTERSBURG AND SMELTZER, Feb. 11.—Mr. and Mrs. T. J. Worthy, and Misses Viva and Yvonne Worthy were Huntington Beach visitors on Sunday.

Sherman Buck is the owner of a new sport model Westcott car purchased this week. He has disposed of the Nash which he has been driving. R. L. Draper continued the irrigation of his extensive beet lands Monday regardless of the heavy rains of Saturday and Sunday. The ground was found to be wet down about ten inches where it was recently plowed.

Wallace Blaylock was quite ill Saturday night and William, his twin brother, was also slightly indisposed. Mr. and Mrs. Guerdner Nichols drove over from Seal Beach Monday and spent the day at the home of the former's parents, Mr. and Mrs. Geo. Nichols.

Mrs. A. D. Wellington was quite ill at the home of her daughter, Mrs. A. Stefanzzi the latter part of the week while suffering with a severe cold and an attack of rheumatism. Her condition seemed to be rapidly improving Monday.

### Recovering From Influenza.

Mr. and Mrs. Ellis Davis and child returned with Mrs. Rush on Sunday and are now at the Rush home, recuperating from their recent illness. When the entire family took down with the influenza, Mrs. Rush at once went to El Monte to care for them. Just as they were recovering, Mrs. Rush's little girl who was with her, also contracted the disease. Then as soon as all were able to travel Mrs. Rush brought them home with her to remain for a while. During the time Mrs. Rush was at El Monte she received word that another daughter, who resides in Los Angeles, was ill, together with other members of the family and just after arriving home Sunday a telegram came from them asking her to come at once as the daughter was quite low with pneumonia. So Mrs. Rush left her patients here in the care of Mr. Rush and went north the same day.

Mr. and Mrs. E. M. Fox, Carlo and Bonnylin and Mrs. Fox's father, Mr. Hoff with Miss Ethel Dwyer as their guest motored Sunday afternoon to Balboa and visited with Prof. and Mrs. H. O. Ensign and family. The party had been invited to the Ensign home for the day but on account of the inclement weather of the morning had to give up this plan.

Mrs. L. E. Berry was on the sick list the latter part of the week but is now well on the way toward recovery.

### Happy Over Rain.

Local ranchers are happy once more; the much needed and long looked for rain having proved the greatest treat that could have been offered. Two inches is the estimate of the rainfall of Saturday and Sunday for this district and enough dampness was supplied to readily bring up all plant life and also proves a great boon to barley crops, a great many of which were on the verge of yellowing for lack of sufficient moisture.

Mr. and Mrs. Quinter Gerhart arrived Friday from Hemet and after spending the day as guests of Mr. Gerhart's cousin, E. Ray Moore, went to the home of Mrs. Gerhart's brother, George McGurk, where they are making an indefinite stay. Mr. Gerhart has sold all his property interests at Hemet, the last having been sold Thursday. Three weeks ago he purchased an alfalfa ranch and having a good offer made for it, sold and re-invested in a fruit ranch, which he almost immediately sold. Now Gerhart has decided to return to this section and is looking over land prospects with the idea of buying and does not intend to go outside of Orange or Los Angeles counties to locate.

Mr. and Mrs. George Gerhart have as a guest at their home, the latter's nephew, Frank Clark, who arrived last Tuesday from the east. Clark was formerly of Los Angeles, then went to San Francisco for a time, later to Indiana and then on an extended trip to New York and other large eastern cities. He now has returned to this state to remain and after a two weeks' visit with relatives here will locate in Los Angeles.

Mrs. D. W. C. Dimock, Mrs. Wilfred Lewis and their nephew, Fred Pope of Talbot motored Thursday to Los Angeles where they spent the day with Mrs. Dimock's mother, Mrs. Laura Lewis. The party went by way of Compton and were accompanied from there by Fred Pope's sisters, Mrs. Walter Rozelle and Mildred Labauch.

Mrs. W. T. Vanduff returned Friday from Pomona where she spent the week with relatives and was accompanied by her daughter, Miss Estelle, who came home for the week end. She returned Monday morning to Claremont.

Mr. and Mrs. William Crawford, daughters Misses Hazle and Esther, of Corona, and their son, Walter Crawford and daughter, Miss Cecil Crawford of Los Angeles arrived Saturday evening for a week end visit at the Geo. B. Crane and Chas. Graham homes. Misses Cecil and Esther Crawford were overnight guests of Mrs. Graham. The other members of the party were at the Crane home and on Sunday the two families and their guests were together at Mr. Crane's. The Crawfords are old family friends having lived within a half mile of Mrs. Crane's father in Iowa.

The Los Amigos embroidery club of Springdale enjoyed a pleasant gathering Thursday afternoon at the home of one of the members, Mrs. Chas. Cook. The afternoon was passed swiftly with fancy work while visiting together and dainty light refreshments served by the hostess formed an appreciated feature of the meeting. This meeting is the first the club members have had for some months but it is now hoped this enjoyable time can be arranged for once each month at least.

Mrs. D. W. Dimock received a card Friday from her father, T. J. Lewis, telling of his and Mrs. Lewis' safe arrival at Datonia Beach, Florida, on Jan. 26th. Mr. Lewis found his father and other relatives whom he is visiting all well and he was enjoying a most pleasant time with them.

W. K. Ely and family moved to Smeltzer the past week from the house lately vacated by Mr. Carter and family. Mr. Ely is in R. L. Draper's employ. Two girls of the family have entered the Oceanview school in the second and eighth grades.

Russell Hall, who is employed on the Geo. B. Crane ranch has changed his plan in regard to moving onto the ranch and instead he and his family, which is composed of his

## SHIPPING FOOD TO JUGO-SLAV SECTIONS

A large shipment of food, clothing and medical supplies for relief work in the devastated areas of Jugo-Slavia to be carried on by the Methodist Episcopal board of foreign missions, is scheduled for immediate shipment from New York, according to announcement by the centenary conservation committee, San Francisco area office.

The supplies are aboard the Red Star liner, Caledonia, for Antwerp, Switzerland, under the direction of Bishop John L. Nuelson of the Methodist Episcopal church stationed there. Bishop Nuelson is now in Jugo-Slavia conferring with government officials as to details of disposition of the supplies.

Included in the shipment are two tons of sugar, 96,000 cans condensed milk, 50,000 lbs. vegetable fats, 29,400 lbs. bacon, 22,000 lbs. corned beef, 12,000 cans syrup, 50,000 bars soap, in addition to large assortments of men's, women's and children's shoes, underwear, dresses, overcoats, sweaters and other wearing apparel. Other items are tea, coffee, cocoa, assorted drugs and smaller household necessities.

"This shipment," said Dr. Geissinger, secretary of the San Francisco area, "is one of many projects now carried on with the centenary fund of \$13,500,000 assigned exclusively to war reconstruction work in Europe. The initial details of our work in Jugo-Slavia were made in New York, through the activities of Madame Groulch, wife of the Serbian ambassador to the United States, who knew of Methodist work in France, Italy and North Africa. Madame Groulch had just come from Jugo-Slavia, and the items of the shipment were made up in accordance with her advice."

### PICTURIZATION OF WIFE WHO IS NEGLECTED BY HUSBAND

The indifferent, neglectful husband is held up to the gaze of the multitude in "Blind Husbands," the Universal photodrama of the Alps, which is to be shown at the Temple theater tomorrow, Friday, Saturday and Sunday.

It is said to be a quiet though powerful denunciation of the man who forgets that his wife is his sweetheart, and donning a cloak of professional engrossment leaves her seemingly out of his scheme of life.

In "Blind Husbands," Dr. Armstrong, the famous American surgeon, nearly loses his beautiful young wife to a love-bugard in the form of an Austrian lieutenant who showers upon her the attentions that her husband is too busy to remember. Eric Stroheim, who depicted the repulsive role of a Hun officer in "The Heart of Humanity," is the starring villain of "Blind Husbands."

Francella Billington, known for her beauty, plays the role of Mrs. Armstrong. The following favorite Universal players complete the cast: Sam DeGrasse, H. Gibson-Gowland, Valerie Germonprez and Jack Perrin.

Awe-inspiring scenery, splendor of costumes, daring dramatic action and a well-padded "brick-bat-moral" combine to make "Blind Husbands" a photodrama that will strike home a righteous blow. Eric Stroheim, the star-director-author-villain, was at one time a lieutenant of the Austrian army and depicts the arrogant assninity of the clans with amusing realism.

Spencer Corset. 801 Spurgeon St.

wife and two small children, have rented the C. N. Davis house, furnished at Wintersburg. The family are newcomers here from Alberta, Canada. Their brother-in-law, Fred Conaway and family, who have been residing in the Davis house, have gone north and located on an island near Stockton. They left here the past week.

Mr. and Mrs. R. L. Draper, Miss Bessie Draper and Flossie Draper were very ill all Thursday night and Friday with a malady greatly resembling ptomaine poisoning but which was said by the attending physician to be a disease now epidemic hereabout. All four were very ill. Frank Draper escaped with a very light attack and all are now fully recovered.

Mr. and Mrs. F. J. Harris moved Saturday to the De Long place south of the Oceanview school. Since their arrival some time ago from Oregon Mr. and Mrs. Harris have been at the home of the latter's parents, Mr. and Mrs. J. A. Murdy.

Prof. and Mrs. E. A. Thompson of Smetzer were overnight guests Friday of Mr. and Mrs. A. H. Moore. Prof. Thompson, who is well known here, is principal of the Sanger High School which is at present closed on account of influenza.

## PLANS CANVASS TO GET MONEY FOR G. O. P.

ANAHEIM, Feb. 11.—At a meeting of Republicans last night at the Board of Trade rooms, four committee chairmen were selected to conduct a canvass for Anaheim's share of the G. O. P. campaign fund. The county has been given a quota of \$3,900, and Anaheim has \$500 of that amount to raise.

Harry Whitaker, appointed by N. T. Edwards of Orange, is city chairman for the canvass. Edwards is county chairman. At the meeting of Republicans last night Justice J. S. Howard was president and Whitaker secretary.

It was decided to divide the district into four sections, with Los Angeles and Center street as the dividing lines. Republicans are to be asked for sums of money as contributions to the campaign work of the Republicans, half to go to the national fund and half to be used in Southern California party work.

Paul Targart was named as team captain for the northwest section, A. W. Wood for the southwest section, A. W. Black for the southeast section and J. M. Eden for the northeast section. Each of these men is to pick a team mate for the canvass and all will work with Whitaker.

As a result of last night's meeting it was decided to organize a Republican Club of Anaheim. For the purpose of organizing such a club a meeting of Republicans of the district will be held at 8 o'clock next Wednesday evening at the Anaheim Board of Trade rooms. Last night it was agreed that this club should take no stand for or against any candidate for party nomination for any office. It will organize in order to make a fight for the success of all Republican nominees.

## News Nuggets

From Northern Orange County

Mrs. Robert Strain of Fullerton, who has been ill for several weeks, does not seem to improve very rapidly. She recently returned from a sojourn at Glenn Ivy Springs where she went in the hope of securing some relief, but without success.

Frank E. Tetter and bride, prominent young people of Glendora, married a few days ago, have decided to make Fullerton their home and will reside at 436½ West Wilshire. They are at present stopping with friends, Mr. and Mrs. R. O. Goodson, at Fullerton until they can get possession of their home. Mr. Goodson is bill clerk for the Santa Fe. Mr. Tetter has secured a position in the oil fields.

Early on the morning of his 19th birthday, Sunday, February 8, William Arlington Rhynolds, son of Mr. and Mrs. E. A. Rhynolds, died at the parents home, 311 East Commonwealth avenue, Fullerton, after a long illness with diabetes. He was a student at the Fullerton Union High school. The funeral was held at 2 o'clock yesterday afternoon from the chapel of the McAuley undertaking parlors, the services being conducted by Rev. H. B. Clark, pastor of the Methodist church, Fullerton, and were largely attended by friends of the young man and the Rhynolds family. Interment was in Loma Vista cemetery.

Santa Ana Lodge No. 236, I.O.O.F., will confer the second degree, 7:30 p. m., Thursday evening, February 12th. Visiting brothers cordially invited.

ALBERT H. T. TAYLOR,  
Recording Secretary.  
OTTO KLENTZ, N. G.

## Own Your Own Home

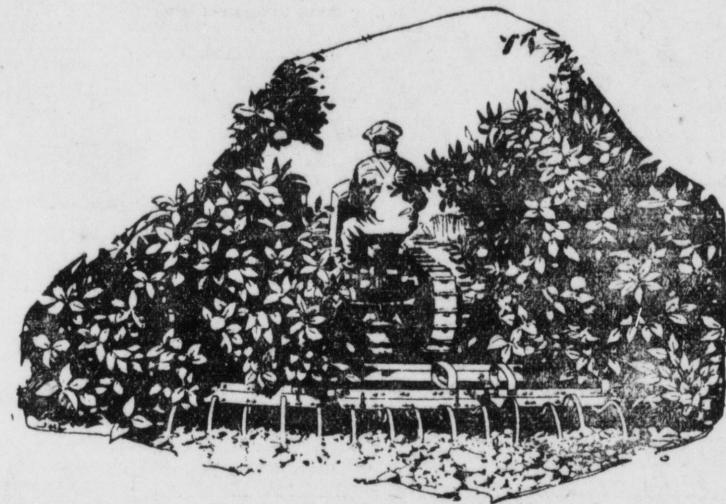

Throughout America there is today no more vital problem than that of home building. The attention of the people has been attracted not only to the immediate necessity for more homes, but also that the new dwellings must be of the kind that makes for good homes and a happy people.

A dwelling must be more than a shelter. Individual ownership of a home builds good citizenship and a loyal pride in the community. Individual ownership in a home encourages habits of thrift, makes the owner more efficient in business. "OWN YOUR HOME" is a practical demonstration of "AMERICA FIRST." Our easy monthly payment plan has helped many pay for homes.

## Cletrac TANK-TYPE TRACTOR

20 Horse-power at the pulley — 12 at the drawbar

Plenty of power at the drawbar. Yet small enough to turn easily in a small space and work in close to the trees. Economical because built to stand the gaff. Small expense for upkeep. Cheap operation. The tractor you've always wanted. Works in any weather—over any soil. You work when you please—not when the weather pleases.

Track wheels run on large roller bearings. Dust-proof motor. Air for carburetor clarified by water. New tank-type, 8-inch-wide, single-grouser track. Does all your work all the time.

Why not have us demonstrate the Cletrac right on your own land, with your own work? No obligation.

# News from Orange County Towns

## Villa Park

VILLA PARK, Feb. 11.—Vernon Wulff is attending the National Electric school in Los Angeles.

The Modern Priscilla Club met with Mrs. A. E. Hughes of Olive on Wednesday afternoon with 11 members and three visitors, Mrs. Dankes, Mrs. Beckman and Mrs. E. H. Adams present. After a short business session the time was spent in fancy work and conversation. Calla lilies and wild violets were used for decoration. After the sewing, refreshments of chicken sandwiches, cake and tea, the club adjourned to meet with Mrs. A. Leitchfues of N. Tustin street on February 19th.

Gear Hill of Los Angeles visited with Mr. and Mrs. H. W. Wulff on Wednesday.

G. G. Williamson of Los Angeles spent a few days on his ranch.

Mrs. L. O. Hanselman and baby, who have been staying with Mrs. A. S. Adams, returned to their home in Laguna on Thursday. Miss Nellie Adams went home with Mrs. Hanselman for a few days.

Mr. and Mrs. Gilbert Williamson and two daughters of Yuba City attended the Annual Meeting at the Orange House on Thursday.

Mrs. C. O. Field and Mrs. W. A. Knuth, Sr., were Los Angeles visitors on Friday.

The W. C. T. U. met at the home of Mrs. A. M. Brubaker on Friday afternoon and spent a very fine time.

Mrs. I. D. Mills of Orange was a guest at the meeting.

Mr. and Mrs. R. H. Lee of Brea and Miss Lulu Harshman of Compton were dinner guests of Mrs. Elma Lee on Friday evening.

Miss Fisher spent the week end with friends in Long Beach.

C. O. Thomson of San Juan Capistrano came Saturday evening to spend Sunday with his wife and son who are visiting with Mr. and Mrs. Wm. Bathurst.

Saturday afternoon Grace Ellen Lee entertained seven of her school girl friends at a birthday party in her aunt's home. Games were played for a time, but the crowning event was when the girls were invited to the dining room, where a beautiful pink and white birthday cake was in the middle of the table. Pink sweet peas were used for decoration and the chicken place cards were carried away as souvenirs. Those present were Ruth Caldwell, Ruth Brubaker, Louise Wette, Frances Barnett, Lillian Morrow, Floy Reisch and Grace Ellen.

Miss Nellie Adams returned from Lomita on Sunday afternoon.

Robert Adams went up Silverado Canyon on Sunday afternoon to work in the mines for a time.

Saturday evening rain began falling and by Sunday afternoon water was coming down the Santiago creek. The ranchers in this vicinity are all glad.

The tile roof is all on the new school building now and work is progressing rapidly on it.

Sunday evening F. D. Lee of Los Angeles and a party of friends came down to help celebrate his daughter's birthday. Music and singing were furnished by the party as they had brought along their instruments. Little Grace Ellen received a number of beautiful presents. Misses Floyd, Rockwood and Volk of Los Angeles and Mr. Victor Watson of Colton were the other members of the party.

Mr. and Mrs. Arthur Strech are the proud parents of a baby boy, born Monday afternoon.

The funeral of Little Ralph Reisch, son of R. F. Reisch, who died on Saturday afternoon was held on Monday morning at the Ellis & Read Undertaking Parlor. The parents have the sympathy of the community in their great sorrow.

Mr. and Mrs. Albert E. Tanberg had as their week end guests Mrs. Louise Watt and her daughter, Miss Bernice Watt.

Albert Wohlfarth, Laguna's former baker, left Monday to spend some time in Los Angeles.

Mrs. C. E. Will, mother of Judge Edward Wall of San Bernardino, is spending a week in Laguna, stopping at the hotel.

Plan Drilling for Oil  
Arthur B. Clark, a Wyoming oil man, is staying at Martin's. Mr. Clark is interested with Joe Skidmore in his oil company. It is reported that as soon as an outfit can be procured, drilling will be started on the Brooks property in the hills.

Mr. and Mrs. J. B. Handy, Mrs. John Gillogly and her two children spent Friday at Echo Lodge. Mr. Handy reports that he and Mr. Bathgate have sold their large power boat, the "Echo" to Mr. Leslie A. Underwood, of Whittier.

The several families which have been ill are all reported much improved.

Mrs. R. E. Ibbittsen, her daughter, ages and her two sons, spent Saturday and Sunday at their Arch Beach house.

## Laguna Beach

LAGUNA BEACH, Feb. 11.—Friday was extremely warm in Laguna, the thermometer registering 80 degrees at noon and 70 degrees at seven p. m. Many people took advantage of the summer-like weather to take a dip in the sea. Saturday evening about nine o'clock it commenced to rain and enough water has fallen to thoroughly soak the ground.

Movie Stars at Work  
Twenty-five members of the Metro Co. are in Laguna filming "Shore Acres." Alice Lake heads the company, supported by Ed Connelley and Frank Brownlee and directed by Rex Ingram. Mr. Ingram is also an artist and formerly had a studio in New York City. The location is at Coast Royal, below Aliso. There they have erected a light-house and various other buildings.

Mildred Chaplin, (Mrs. Charlie Chaplin) with the Anita Stewart Co. has been working on some scenes of the picture "Thea," the past week, in the grounds of Frank Cuprien's studio at Arch Beach.

Mr. Cuprien opens an exhibition of his paintings at the Glenwood Mission Inn, the middle of this month.

Henri De Kruif left Monday on a walking trip to Palm Springs, via Capistrano, Elsinore, and Hemet. He will sketch on the way and expects to be gone about two months.

Mr. and Mrs. Adam Emory Albright left Monday for Chicago. Mr. Albright is the well known painter of children and has been in Laguna several months painting the children hereabout playing on the sands, among the rocks, on the shore and up in the hills.

Miss Pauline Jahraus accompanied by Prof. Marvin, dean of the normal faculty, and Mrs. Marvin, spent Sunday at the home of Miss Jahraus' parents, Mr. and Mrs. E. E. Jahraus.

Janette Nelson, Mrs. Nelson and a party of friends are spending a few days in Laguna.

Dr. and Mrs. Howe spent four days at their cottage this week. They have recently returned from the north.

Mr. and Mrs. Albert E. Tanberg had as their week end guests Mrs. Louise Watt and her daughter, Miss Bernice Watt.

Albert Wohlfarth, Laguna's former baker, left Monday to spend some time in Los Angeles.

Mrs. C. E. Will, mother of Judge Edward Wall of San Bernardino, is spending a week in Laguna, stopping at the hotel.

Plan Drilling for Oil  
Arthur B. Clark, a Wyoming oil man, is staying at Martin's. Mr. Clark is interested with Joe Skidmore in his oil company. It is reported that as soon as an outfit can be procured, drilling will be started on the Brooks property in the hills.

Mr. and Mrs. J. B. Handy, Mrs. John Gillogly and her two children spent Friday at Echo Lodge. Mr. Handy reports that he and Mr. Bathgate have sold their large power boat, the "Echo" to Mr. Leslie A. Underwood, of Whittier.

The several families which have been ill are all reported much improved.

Mrs. R. E. Ibbittsen, her daughter, ages and her two sons, spent Saturday and Sunday at their Arch Beach house.

## Orange Happenings

ORANGE, Feb. 11.—Whatever Circle of The King's Daughters held a pleasant meeting at the home of the president, Mrs. E. T. Lee. Eight members were present. The circle is engaged in making aprons and orders for aprons are solicited, the material to be furnished by the one giving the order.

The women are also piecing big quilts and would be glad to receive donations of good new quilt pieces. Orders and pieces may be left with Mrs. M. E. Williams, South Grand street.

It was decided by unanimous vote to resume and maintain the donation of \$2 per month to the Armenian Relief Fund, also to give \$10 to the Children's Home in Los Angeles, as has been done for the past two or three years.

The penny collection for the day amounted to 77 cents.

The next meeting of the circle will be held at the home of Mrs. E. L. Meyers, 360 South Center street, February 23. It will be a work meeting.

Thursday, February 12, members of Gordon-Granger W. R. C. invite the public to share with them a cup of tea at the home of Mrs. Ellis, 205 South Glassell street. In this case it is truly a "cup o' kindness," for the tea is primarily for the benefit of the hungry children of Serbia for whom the guests will be asked to make a silver offering.

Also, the day is the 11th anniversary of the birth of Abraham Lincoln, whose work for the betterment of mankind will always be an inspiration to every loyal American to do his duty toward his unfortunate fellow men. The informal program will be commemorative of Mr. Lincoln.

A spirit of helpfulness, good-will and kindly sociability permeate such gatherings and promote a better "town spirit" and it is hoped many will avail themselves of this opportunity to bring sunshine not only into their own life but into the lives of others. Drop in any time during the afternoon between 2 and 4:30.

Invitations have been issued by the executive board of the Woman's Club for a valentine dance on Friday evening, February 13, at the club rooms. Admission to the dance is day evening, February 13, at the club noon the board is giving a card party, to which all of the members of the club who play cards are most cordially invited to attend. No other invitation will be given the club members. Invitations have been issued to those not club members, and the membership card or invitation must be presented at the door. An admission of 25 cents will be charged for the afternoon.

The E. T. C. Club held an all-day meeting at the home of Mrs. Robert Johnson as a farewell for Mr. William Marsh, who expects to leave Orange for awhile. Mrs. Marsh was presented with a fountain pen by the members of the club who expressed their regret at her departure. The guests of the club were Mrs. C. S. Parker, Mrs. William Johnson and Mrs. B. Gow of Norfolk, Neb.

The Super Six Club held its regular meeting at the home of Miss Nora Eastham on East Palmyra avenue. An enjoyable evening was spent with fancy work, at the close of which the hostess served chocolate pie and coffee. All of the members, with the exception of one, were present.

Mrs. Margaret Paxton, who teaches in the Bakersfield school, is in Orange, the Bakersfield schools being closed on account of the flu.

Mrs. D. A. Haynes of Long Beach has been in Orange for a few days visiting her mother, Mrs. Jane Mathers, of North Orange, who has been ill.

Born, to Mr. and Mrs. E. A. Kinney at the Santa Ana Hospital on Monday, a ten-pound son.

Rev. M. L. Pearson is in Fresno, visiting his son, Wendell Pearson, who is ill.

Died, Monday evening, the infant son of Mr. and Mrs. Fred Powell.

PROSPEROUS RAISIN YEAR  
FRESNO, Feb. 11.—Trustees of the California Associated Raisin Company have instructed their delegates to cast their ballots for the re-election of the present directors, at the annual meeting here today. This action will result in the election of the old board of directors, it was announced. The directors are H. H. Welsh, A. G. Wishon, Frank Wilson, A. Buckner, Milo Rowell, Hector Burness and Wylie Giffen.

The past year was the most prosperous in the history of the association, the trustees were told.

## CHEAPER SUGAR IS COMING FROM CUBA

NEW YORK, Feb. 11.—H. C. Scrymger of the sales department of the Federal sugar refinery, 91 Wall street, says that within two weeks there will be plenty of Cuban sugar at lower prices. The Cuban railroad strike is now ended and the strike of loaders handling sugar about the docks is expected to be settled in a few days. This will mean the bringing to New York of a large number of vessels with the raw product, causing a decline in the maximum price of 22 cents the pound to 17 cents.

Inability to get raw sugar has caused the refiners in this district to work at only about 50 per cent capacity during the last three weeks, Mr. Scrymger said.

## Fine Dentistry With Few Visits

Registered Dentists using the E. R. Parker System make a specialty of promptly caring for out-of-town patients.

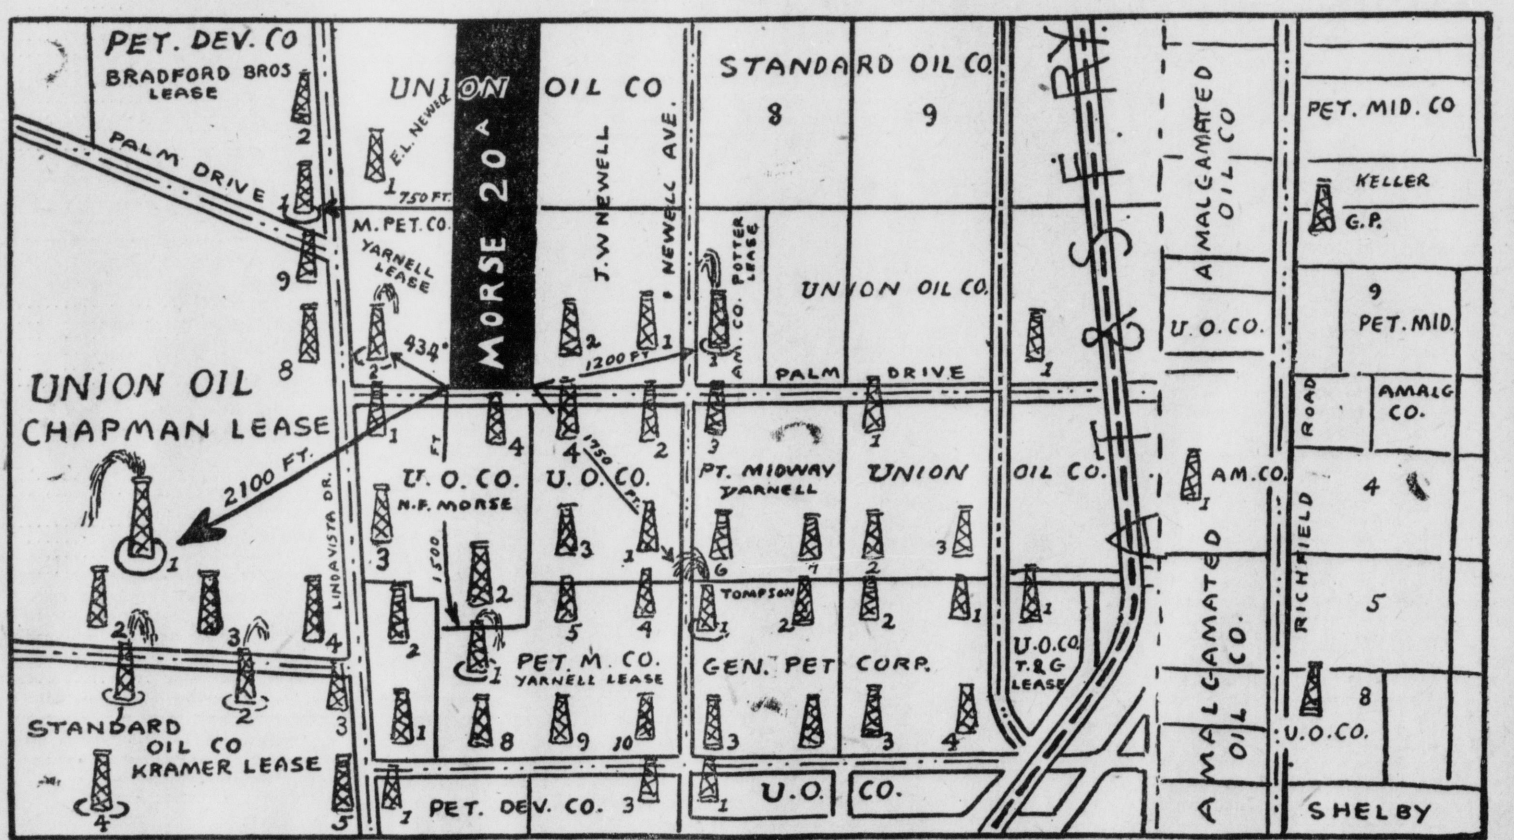

Most people can not afford to waste unnecessary time in a dentist's office, and E. R. Parker System dentists believe in giving such patients all possible attention and work on each visit, so they will not have to come in so often.

This work is all done so well it is fully guaranteed. You are sure of good dentistry and complete satisfaction. Best of all, you need not fear pain, for every safe method of overcoming pain is used. Prices are moderate and examinations and advice are free.

There are twenty-four offices in different cities where the E. R. Parker System is used, the nearest one being at

706 So. Broadway, L. A. Dr. Painless Parker.

# The Golden Opportunity That Comes But Once

## WILL YOU EVER HAVE AN OPPORTUNITY LIKE THIS AGAIN? No. 1

Practically every man in Orange County has driven by the Chapman gusher, and, WISHED—you know what. You have been looking for an investment that WOULD PAY for many years. That opportunity is here. Will you act while you can?

The N. Frank Morse Tract, 20.70 acres, has been divided into UNITS, DEEDED to the Placentia National Bank, Placentia, California, as TRUSTEE for USE and BENEFIT of UNIT HOLDERS. The PURCHASERS BUY and OWN the land IN FEE, as well as all the OIL RIGHTS. This Sterling Institution, as Trustee, handles your money, collects ONE SIXTH royalty from the Union Oil Company, Lessee, and distributes same to all owners of the land.

HOFFMAN, SMITH & HOLCOMBE, SANTA ANA, HAVE BEEN APPOINTED MY FISCAL AGENTS FOR HANDLING THIS PROPERTY.

### PROVEN TERRITORY

The Morse Tract is practically surrounded by oil wells:

The Standard's Kraemer No. 1-2, are less than 3000 feet to the southwest;

The Union's famous Chapman Gusher, only 2100 feet southwest.

The Gen-Pet, Thompson gusher, 1750 south-east.

The Amalgamated, Potter Gusher, only 1200 feet, east;

The Pet-Dev-Co., Bradford, only 750 feet west, and The Mid-Pet., Yarnell Gusher, just 434 west of this tract. Can you beat this for a location for an oil well anywhere?

### SOME FIGURES

If there are 5 producing wells on this tract, you WOULD not hesitate for one moment BUYING all you could AFFORD and More. BUT IF—you know you COULD not touch one UNIT at any PRICE, if that were the case.

FIVE LOCATIONS for wells can be made on this property, and wells producing 1000 to 1500 barrels per day are the rule in this field.

This Tract being in the CENTER of Production, WHY not several such wells HERE.

ONE well of 1000 barrels would pay you \$125 per UNIT the FIRST year, or 50% of your investment; 5 wells of this capacity, would pay you FIVE times this amount, or \$625 per year on each UNIT; this would equal 250% on an investment of \$250.

These Units May Be Bought At the Following Offices:

Hoffman, Smith & Holcomb  
312 N. Main St., Santa Ana

C. R. Allen  
F. & M. Building, Fullerton.

N. Frank Morse, Owner

# Weak-Nervous Women

## There is No Remedy Like Vinol

Those who are nervous, all run down, no appetite, and can "hardly drag around" Vinol creates a hearty appetite, induces sound sleep, invigorates the nerves, creates strength and quiets the nerves.

Here is Proof that Should Convince Everyone

Seebree, Ky.—"I was run-down, weak, and nervous, and had no appetite and could not sleep, so I was unfit to keep around and do my work. A friend asked me to try Vinol. I did so and now I sleep better, eat better and feel better in every way, and I can truly recommend Vinol to others who are in a run-down, nervous condition."—MRS. T. H. SHELTON.

St. Louis, Mo.—"I was in such a weak, run-down, nervous condition I could not do my work, and had lost all my ambition as I had taken so much medicine without benefit. A relative told me about Vinol and I have done for me in restoring my health and strength."—MRS. EDNA WIND.

For all run-down, nervous, anemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol.

Your money will be returned if Vinol fails—OUR COD LIVER AND IRON TONIC IS THE GREATEST STRENGTH CREATOR KNOWN
